

ILLEX

FOR AUTHENTIC SPORTS FISHERMEN
SALT & FRESH WATER
2016

Welcome to our 2016 catalogue.

As always our ILLEX teams across Europe have put their hearts and souls into developing new and exciting products for you to enjoy using.

Take for example our new **Barooder** float tube. Our team members are fans of float tube fishing and have designed our new model using only the very highest quality materials.

We have developed new rods for our Ashura rod ranges : **Element Rider, Pepper, The Artist, Stream Master** and **Delivrance**. Each rod is technically perfect and designed using flawless blanks with only top quality components. Just pick one up and you'll realise these really are special rods !

The 2016 lure range feature no less than 22 new hard and soft baits designed by **Seiji Kato** and many feature new colours he has developed for this year

Our lure ranges designed in Europe – **Dexter, Gambit & Stream Master** feature 18 new models notably the new **Hand Poured Dexter Shad** coloured using hues in the ultraviolet spectrum.

The **Illex 2016** catalogue bears testament to the importance we place on innovative design, rigorous quality control and close attention to detail.

Our teams are pro-active when it comes to respecting and protecting the natural environment we are privileged to share together. We have been sourcing and using many materials designated as being **eco-friendly** as their production is sustainable and respects the environment.

Illex wishes all of you an excellent 2016 season

Regards from all the ILLEX team
Thomas Vogels

BELLY BOAT BAROODER REF: 01977 **NEW**

Barooder 160 ILLEX Float Tube This float tube has been designed with plenty of input from our team Illex anglers who are all passionate about float tube fishing. This high quality model has been made from the same top of the range materials used to make semi rigid inflatable boats. Stable, ultra-resistant functional and discrete. The "V" shape allows you to manoeuvre the tube with ease

Details :

Packed with design features thought out by our team members!

- 2 separate floats equipped with their own independent secure valve.
- Seat and back element with separate air chamber and secure valve. The seat has been designed for maximum comfort whilst fishing.
- 2 double zipped removable roomy side pockets (L 60cm, W 23cm H 13cm). Ingenious ring fitting that will take a rod rest.
- A removable 25.5L storage bag at the back of the chair. 2 Velcro strips at the front of each float will securely hold 3 made up rods.
- 1 security bar with unhooking net and a centimetre scale.
- 8 solid stainless corrosion resistant rings for tying up. 3 carrying handles for easy lifting.
- 2 rucksack straps for easy carrying.
- Float tube colour: Navy blue
- Seat colour: light grey

Tech specs:

- High resistance PVC coated material
- 0.7mm thick
- 1000 Denier polyester
- 3 security valves for easy inflation and deflation
- Max. load 180Kg
- Dimensions: L 160cm W 110cm
- Weight of float tube inflated and with accessories; 9.30kg

Supplied with :

- Foot pump
- Repair kit
- Carry bag (L64cm W51cm H20cm)

ASHURA WAIEFU 270-3 H REF: 02649

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	3	93	200	80	270	8	496

The Waifu 270 H is a versatile rod made in three equal length sections. Designed specifically for extreme fishing from the shore. The rod can punch big sinking stickbaits up to 200g thanks to its power and length. Great too for tuna fishing when you need a discrete long distance approach. Because it packs down to less than a metre you can easily take it on your travels and hunt down tropical fish like big red carp.

ASHURA WAIEFU 2404 H REF: 08386

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	4	57.7	MAX 200G	80	240	7	530

Every angler who travels regularly by air will experience at one time or another the frustration of having a rod tube lost in transit. On top of that more and more airlines are surcharging for long rod tubes. To help resolve these problems we have developed a new multi section Popping rod for our Ashura tropical range.

This was the brief we gave the designers of our new rod. To create a rod that can travel inside a classic suitcase AND a rod that will retain all of its original strength and action so once fishing you will forget that it is a multi-section rod!

The Waifu 2404 H is a fantastic popping rod! Popping is a demanding style of fishing requiring long casts and physical rod animation which often tires travelling anglers out after Day 1. The action of the Waifu 2404 H lets you work big poppers and stick baits without angler fatigue. The action will also soak up the first rushes of hooked tropical fish. There is plenty of power in the blank to quickly subdue hard fighting fish like big trevally from 15-40kg!

All the original action of the rod is there for you to enjoy on your travels!

The rod comes with a distinctive bag and a luxury PVC protective tube.

ASHURA MAKAHA 1703 H REF: 08390

ACTION	SECTION	SIZE (CM)	JIG (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	3	57	MAX 300G	50-60	170	7	395

Every angler who travels regularly by air will experience at one time or another the frustration of having a rod tube lost in transit. On top of that more and more airlines are surcharging for long rod tubes. To help resolve these problems we have developed a new multi section jig rod for our Ashura tropical range.

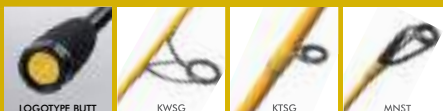

This was the brief we gave the designers of our new rod. To create a rod that can travel inside a classic suitcase yet retain all of its original strength and action so once fishing you will forget that it is a multi-section rod!

The Makaha 1703 H is a short and powerful jig rod rated at 60lb. It has been specifically built to cope with speed jigging either under the arm or in a fighting harness. You can comfortably jig lures up to 300g without undue fatigue.

All the original action of the rod is there for you to enjoy on your travels!

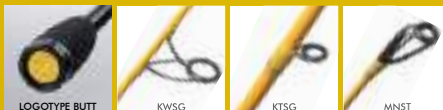

The rod comes with a distinctive bag and a luxury PVC protective tube.

ELEMENT RIDER S 190 MH REF: 01453

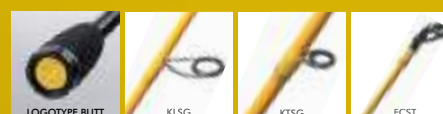

ACTION	SECTION	SIZE (CM)	JIG (G)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1+1	138	60-100	15-60	30	190	7	206

This ELEMENT RIDER is a real versatile performer. The design brief was to produce a rod that would excel in a number of different situations: Light jigging in the Med or tropical destinations (like Panama, Cuba, Reunion Islands...) Small tropical fish with surface lures or shallow sinking plugs (Bonnie, Clyde Mud Sucker, water monitor, Arnaud, Squad Minnow and various poppers. The rod is fitted with tangle proof Fuji K series rings for trouble free casting in any conditions. Wreck fishing for Pollock and cod This short, powerful and responsive rod is guaranteed to thrill no matter where in the world you do your fishing!

ELEMENT RIDER S 190 XH REF: 03021

ACTION	SECTION	SIZE (CM)	JIG (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1+1	138	120-200	50	190	7	203

A versatile powerful rod designed to cover a number of different technical situations: Lift methods either working from the bottom or at mid-depth Fishing heavy for cod, Pollock and flounders Intermediate Mediterranean or tropical jigging (Bahamas, Panama, Antilles, Reunion islands...) Fitted with Fuji K rings to eliminate any risk of tangling your line whilst lowering rigs or heavy jigs. This short, powerful yet responsive rod is exciting to use whether fishing home waters or more exotic destinations!

ELEMENT RIDER S 198 M REF: 03031

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	1+1	167	5-20	12	198	8	120

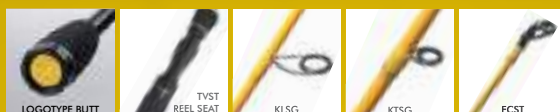

The Element Rider S 198 M has been specifically developed for kayak fishing but is equally at home in any lightweight situation (fishing weightless, with small plugs or light jig heads...) We have used the very latest Japanese fittings such as FUJI SIC K rings to completely eradicate any risk of tangling round the rings. Add to this a skeleton reel seat and we have created a rod that is astonishingly light and sensitive yet with hidden strength and great touch right through to the lure.

ILLEX

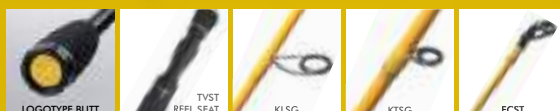

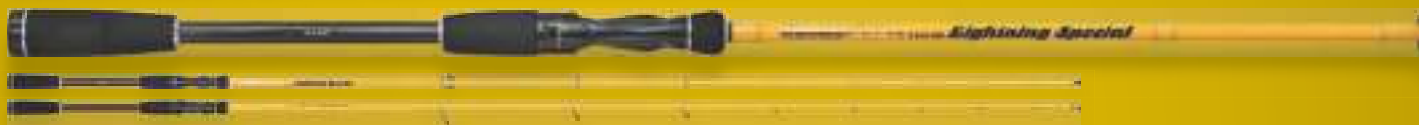

SALT WATER SERIES
ELEMENT RIDER

ELEMENT RIDER S 210M STALKING SPECIAL II REF: 01987 **NEW**

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	1+1	184	5-21	6-14	210	9	118

The S210M Stalking Special is designed for surface lures and shallow diving plugs like Bonnie, SK Pop, water Monitor (surface lures) and Arnaud, Squad Minnow or Squirrel (shallow divers). The rod's action also suits light softbait styles such as weightless or light jig head. Fitted with Fuji K series rings to eliminate any chance of the line catching whilst casting and the latest TVST reel seat that has the following advantages: ultra-light, "V" shape gives great grip on the handle that is so important for accurate casting and finally direct contact with the blank both on top and on the sides of the rod for better bite detection. Supplied with an elegant signature rod bag in a rigid Cordura protective tube.

ELEMENT RIDER S 210 MH LIGHTNING SPECIAL REF: 01847 **NEW**

ACTION	SECTION	SIZE (CM)	JIG (G)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1+1	175	120	7-35	6-14	210	9	124

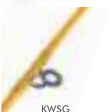

Designed for fishing light soft baits on Lightning Heads the S 210 MH LIGHTNING SPECIAL is so versatile that it can be used with any standard size lure. This latest version is fitted with Fuji K series rings that eliminate any chance of the line catching whilst casting and the latest TVST reel seat that has the following advantages: ultra-light, "V" shape gives great grip on the handle that is vital for accurate casting and direct contact with the blank on top and on the sides of the rod for better bite detection. Supplied with an elegant signature rod bag in a rigid Cordura protective tube.

ELEMENT RIDER S 210 H THUNDER BOLT REF: 01837 **NEW**

ACTION	SECTION	SIZE (CM)	JIG (G)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1+1	175	150	10-60	20	210	9	127

The ELEMENT RIDER S 210 H THUNDER BOLT is built for vertical fishing with big heavy soft baits. The rod has the right action and powerful blank needed by anglers looking to target specimen fish. This new version has been finished with Fuji K series rings eliminating any chance of the line catching whilst casting and the latest TVST reel seat which has the following advantages: ultra-light, "V" shape gives great grip on the handle that is vital for accurate casting and finally direct contact with the blank on top and on the sides of the rod for better bite detection. Supplied with an elegant signature rod bag in a rigid Cordura protective tube.

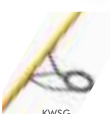

ELEMENT RIDER S 220 XH SPECIMEN SPECIAL REF: 08494

ACTION	SECTION	SIZE (CM)	JIG (G)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	1 + 1	130	200	20-70	20-30	220	8	183

The Element Rider Specimen Special really does live up to its name ! This is a rod designed to handle record size fish from any of our Atlantic coastline. The rod has been designed to handle the aggressive head shakes of big pollock and ling that love to hang around wrecks. The rod is perfect for hard fighting fish like these as the action absorbs the lunges and runs of big powerful fish. The solid tip is sensitive and helps show up every knock or twitch on the line which helps detect the sometimes delicate bites of larger fish like shadefish who often shed the hook close to the boat. The softer tip on this rod helps avoid such hook pulls. You can fish for these big trophy fish in total confidence with this rod. It has all the subtle power you need to come out on top!

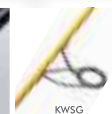

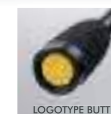

ELEMENT RIDER S 225 H KORRIGAN REF: 01828 NEW

ACTION	SECTION	SIZE (CM)	JIG (G)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1/4 + 3/4	142	200	10-60	30	225	8	159

The ELEMENT RIDER KORRIGAN S 225 H is incredibly light and sensitive. Our design team have worked hard to produce a rod that can handle jigs up to 200g as well as big shad soft-baits either fished vertically, on straight retrieves or trolled. The blank has loads of power in reserve and will tame big bass and pollock with ease in the toughest conditions the sea can throw at you- strong tides, fishing over rocks and wrecks in depths up to 90m! The top quality Japanese blank has been finished with the latest Fuji SIC K guides to eliminate line twist and each guide is double whipped for strength. A PVA handle sits just above the KDPS reel seat shaped to help you work jigs and give you a good firm hold for playing hard fighting fish. Supplied with an elegant signature rod bag in a rigid Cordura protective tube.

ELEMENT RIDER S 235 MH REF: 03049

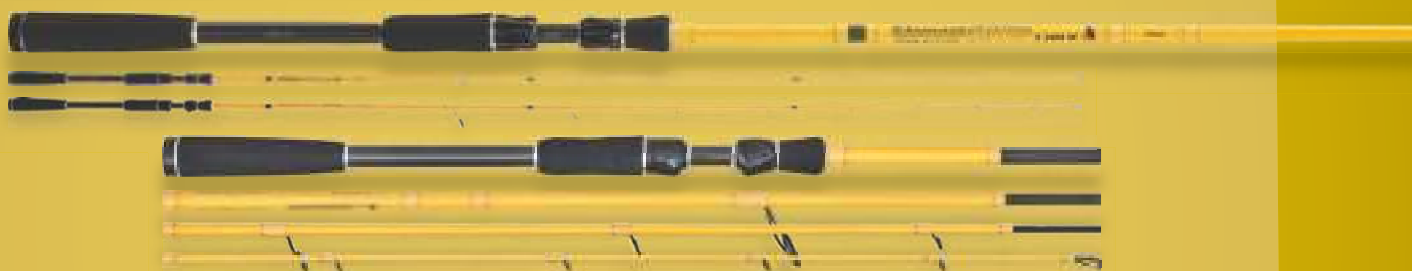

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1/4 + 3/4	169	10-40	20	235	9	170

This is the perfect rod for intensive boat fishing using surface baits like Bonnie 128, Bowstick 130, Chatter Beast 145 or the Chatter pop 130. Great too for fishing plugs like Arnaud and Mag Squad or working soft baits like Nitro Shad 90 and 120 fished on Nitro Shad heads up to 35g. The rod has been built using the very latest high-tech Japanese fittings such as FUJI SIC K rings to eliminate tangles and a skeleton reel seat that reduces weight whilst remaining effortless to hold and fish with all day long!

**ELEMENT RIDER S 230 M** REF: 03043

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	2	118	5-28	6-12	230	9	148

A two piece rod designed principally for fishing with shallow diving and surface plugs. The action is also perfect for fishing soft baits with light jig heads or weightless. The rod is fitted the latest Japanese fittings such as FUJI SIC K rings to eliminate tangles and a skeleton reel seat to reduce weight and maximise contact with your lure whilst remaining effortless to hold and fish with all day long!

ELEMENT RIDER S 2404 M NOMAD REF: 08602

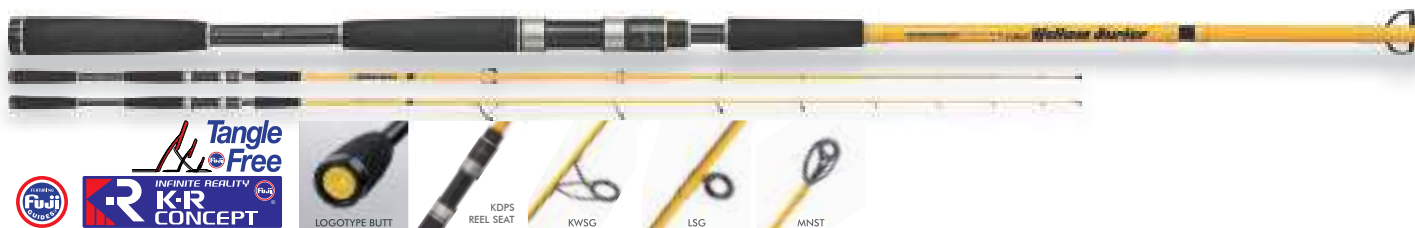

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	4	65	7-35	12	240	9	170.5

The ELEMENT RIDER S 240 M Nomad is a versatile 4 section rod that will find favour for anglers travelling abroad for a spot of fishing. This is a genuine 4 section rod that has been designed so it will pack away in a classic suitcase. A great compromise for freshwater and sea plug anglers from both shore and boat. Designed for animating surface lures like bonnie, Chatter beast and water monitor as well as plugs like Arnaud, Squirrel and squad Minnow. This rod has been built on the latest Fuji Sic K rings which eliminate any chance of the line tangling whilst casting. The light skeleton reel seat has an ergonomic handle and gives you direct contact with the blank. Supplied with a bespoke bag and a deluxe PVC protective tube.

ELEMENT RIDER S 240 MH QUARAB II REF: 02000 **NEW**

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	2	122	8-45	16	240	9	168

The ultimate all-round rod is the best way to describe our new ELEMENT RIDER S 240 MH QUARAB. This is a thoroughbred sea rod from the Element Rider stable and is great for bass fishing with plugs and soft baits from the shore or a boat. Great also for light tropical fishing! Top quality Japanese blank technology has been teamed up with the latest Fuji SIC K guides to eliminate any chance of the line catching whilst casting. The guides are all finished with double whippings for extra security. Supplied with an elegant signature rod bag in a rigid Cordura protective tube.

ELEMENT RIDER S 240 H YELLOW SURFER REF: 01824 **NEW**

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1/4 + 3/4	153	20-80	30	240	9	197

Ultra-fast and powerful blank that casts prodigious distances and will handle most big surface or shallow diving lures as well as soft baits like Nitro Shad or the Nitro Slim Shad fished vertically, straight or trolled. This rod will handle a wider range of lures than the S 240 MH which makes it superbly versatile and suitable for boat and shore fishing as well as light tropical angling. Built on the finest quality Japanese blanks and finished with the latest Fuji SIC K guides to eliminate line twist and each guide is double whipped for strength. A PVA handle sits just above the KDPS reel seat shaped to help you work jigs and give you a firm grip when playing hard fighting fish. We recommend that you team this rod up with Nitro PE Salt Water Game 30lb braid. Supplied with an elegant signature rod bag in a rigid Cordura protective tube.

ELEMENT RIDER S 250 H REF: 03063

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1/4 + 3/4	170	10-60	20	250	9	200

This is a rod designed with gentler sink and draw situations in mind with a fast action and power in the blank that maximises resonance when fishing this technique. Perfect for jigs and soft lures like the Nitro shad and the Nitro slim shad fished on Nitro heads up to 55g. Built using the very latest Japanese fittings such as FUJI SIC K rings to eliminate tangles and a skeleton reel seat which reduces weight and maximises contact with your lure whilst remaining effortless to hold and fish with all day long!

ELEMENT RIDER S 250 XH RISING PHOENIX REF: 01817 **NEW**

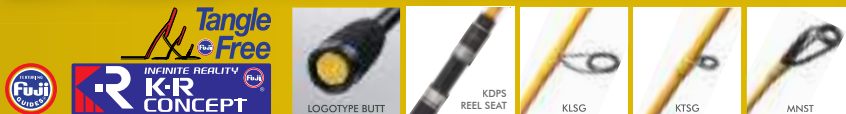

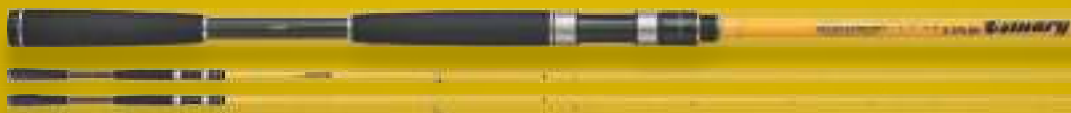

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1/4 + 3/4	163	20-100	40	250	9	208

The new ELEMENT RIDER S 250 XH is great for brushing lures across the bottom "traction style". The rod will handle big soft baits and heavy metal jigs. The extra power in the rod is useful when fishing in more challenging conditions. Built with the finest quality Japanese blank and finished with the latest Fuji SIC K guides to eliminate line twist and each guide is double whipped for strength. A PVA handle sits just above the KDPS reel seat is shaped to help you work jigs better and give a secure hold on the rod when playing fish. We recommend that you team this rod up with Nitro PE Salt Water Game 40lb braid. Supplied with an elegant signature rod bag in a rigid Cordura protective tube.

ELEMENT RIDER S 260 ML SHORE BLASTER REF: 08701

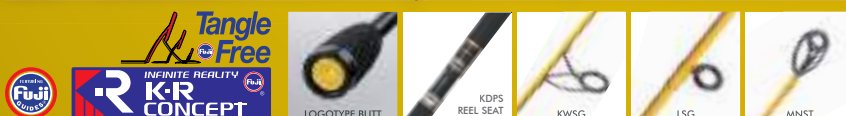

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	2	133	7-25	12	260	8	152

Inspired by Japanese shore sea bass rods, the Shore Blaster is ultra-sensitive and will detect the most delicate of bites. The length is perfect for casting a long way and giving subtle animations to soft baits on weightless rigs or on small loaded heads. Also great for fishing small plugs. Finished using the latest FUJI fittings the rod features SIC K rings that eliminate any risk of tangling round the rod tip. Supplied with a bespoke rod bag and a rigid protective Cordura tube.

ELEMENT RIDER S 270 MH ESTUARY II REF: 02002 **NEW**

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	2	139	10-50	16	270	9	180

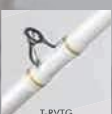

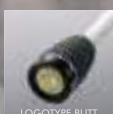

The S270 MH ESTUARY is a rod designed for shore angling. The fast blank is light and powerful which suits distance casting with sinking or floating plugs between 10 and 50g. The tip action is ideal for working a lure and the rod has plenty of power in the lower section to handle hard fighting bass or even a big leerfish if you are lucky enough to be fishing in the Med! Built on the finest quality Japanese blanks and finished with the latest Fuji SIC K guides to eliminate line twist and each guide is double whipped for strength. A PVA handle sits just above the KDPS reel seat shaped to help you work jigs and give you a firm grip when playing hard fighting fish. Supplied with an elegant signature rod bag in a rigid Cordura protective tube.

ELEMENT RIDER S 330 XH SHORE BREAK REF: 00143 **NEW**

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST REGULAR	2	168	20-80	30	330	10	240

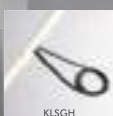

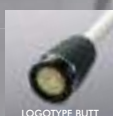

The ELEMENT RIDER S 330 XH is an ultra-versatile rod designed for shore anglers wanting to cast big lures (poppers, stick baits or minnows) or casting jigs a long way no matter what the conditions. Built with the finest quality Japanese blank and finished with the latest Fuji SIC K guides to eliminate line twist and each guide is double whipped for strength. The KDPS reel seat is shaped to give a secure hold on the rod when playing fish. Supplied with an elegant signature rod bag in a rigid Cordura protective tube.

PEPPER B 210 UL BAIT FINESSE SPECIAL REF: 08719

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	1+1	181	0.4-7	2-10	210	11	108

The PEPPER B 210 UL Bait Finesse Special is a casting rod for all light tackle enthusiasts. The blank is ultralight, super-fast and responsive. Perfect for modern rigs for zander and perch fishing (weightless, Wacky Rig, Neko Rig, Live Bait Rig, Shaking Rig, Micro Jig and Drop Shotting) The solid tip is incredibly sensitive and the progressive action lets you feel every contact with the bottom and the slightest tap or knock from a fish. The rod is equally at home with small plugs and crankbaits. Whether fishing in open water or near snags there is enough power in the blank to get fish away from trouble quickly. The Japanese blank is very slender and fitted with the latest ultra-light FUJI TORZITE titanium micro rings. These are great for distance casting and eliminate any chance of the line getting caught round the rings whilst fishing. These innovative rings also help lines and braids last longer. A light skeleton reel seat completes the setup which maximises contact with the blank and is comfortable to hold thanks to an ergonomic handle. Supplied in a bespoke bag and a rigid Cordura protective tube.

PEPPER S 198 UL MICRO JIG SPECIAL REF: 01481

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST REGULAR	1+1	172	0.4-5	2-5	198	8	99

Developed specifically for fishing with mini jigs and light loaded heads the PEPPER S 198 UL Micro Jig Special is a cracking little rod! Ultra light and ultra responsive, this rod has all the technical characteristics needed for micro jig fishing or other techniques like Light Drop Shot, Light Neko rig, Light Split or Wacky Rig uses. The tippy and responsive casting action of this rod is equally perfect for small plug and minnow fishing. The solid tip offers unparalleled sensitivity which helps read the nature of the bottom coupled with a progressive action that lets you feel every brush and tap of a chasing fish. Fitted with tangle proof series K rings for trouble free casting in any type of weather.

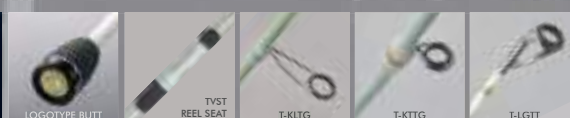

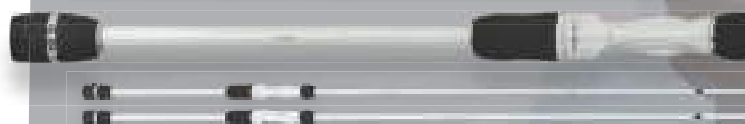

PEPPER S 2102 ML AKOYA PEARL REF: 08721

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	2	108	3.5-10	3-8	210	9	99.5

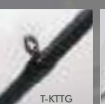

This is the 2 section version of the legendary AYOYA PEARL rod. Designed for light and technical fishing styles there is surprising amount of power in reserve for a medium light rod so targeting big fish on light tackle is a realistic possibility. Very sensitive and responsive you can detect a fish breathing on your lure through the blank. Being in two pieces this new rod breaks down easily and can be carried around for urban rock and street fishing sessions. The top quality Japanese blank is fitted with the latest ultra-light FUJI TORZITE titanium «K» rings. These are great for distance casting and eliminate any chance of the line getting caught round the rings whilst fishing. These innovative rings help lines and braids last longer. A light skeleton reel seat completes the set-up which maximises contact with the blank and is comfortable to hold thanks to an ergonomic handle. Supplied in a bespoke bag with a rigid Cordura protective tube.

PEPPER S 230 L FINESSE SYMPHONY REF: 01854 **NEW**

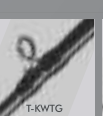

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	GUIDES (QTY)	WEIGHT (G)
FAST	2	118	3-20	4-12	10	115

The PEPPER S 230 L FINESSE SYMPHONY is designed for light fishing up in the water and will give a great zigzag action to your baits at all layers in the water. The action is versatile and lends itself to all ultra light techniques such as drop shooting, light jig head, light Texas weightless etc. The length is ideal for casting light lures a long way whilst still keeping tight control of the line the moment the lure lands. Top quality Japanese blanks finished with the latest FUJI components. The rod is mounted with FUJI TORZITE titanium K series rings eliminating any chance of the line catching whilst casting and the latest TVST reel seat which has the following advantages: ultra-light, "V" shape gives great grip on the handle that is so important for accurate casting and finally direct contact with the blank on top and on the sides of the rod for better bite detection. Supplied with an elegant signature rod bag in a rigid Cordura protective tube.

THE ARTIST B 198 ML REF: 08808

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	1+1	167	3.5-14	3-8	198	9	124

The Artist B 198 ML is the ideal rod for fishing small and medium sized plugs. The length and fast action of the blank make for great control and unrivalled casting precision. This is a classic Ultra-Light rod that is the perfect tool for all types of technical light fishing. The casting action is perfect for plugs (Topwater, Minnows, Crankbaits, Light Spinnerbaits, Light Buzzing.) and will also handle light softbait rigs (weightless, micro jig, light jig head.) The blank has the sensitivity normally associated with more powerful rods. This feel and control make it perfect for targeting asp, perch, zander and bass. The top quality Japanese blank is fitted with the latest ultra-light FUJI TORZITE titanium rings. These are great for distance casting and eliminate any chance of the line getting caught round the rings whilst fishing. These innovative rings help lines and braids last longer. A light PTSMPs reel seat completes the set-up. This maximises contact with the blank both from the top and along the sides of the handle. Supplied in a bespoke bag and a rigid Cordura protective tube

THE ARTIST B 220 H REF: 03081

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1+1	184	20-60	14-25	220	10	166

The ARTIST B 220 H has been specifically developed for fans of Japanese made hard and soft swimbaits. The rod is just the right length for precision casting and underarm casting with bigger soft baits like Dexter Shad. Perfect for working round those really snaggy swims loved by big pike. The blank has plenty of power in reserve vital for controlling hard fighting fish of all sizes. Supplied with a monographed rod bag and a rigid protective tube finished in Cordura.

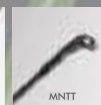

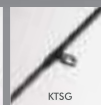

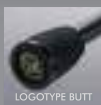

THE ARTIST S 1982 UL REF: 08812

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	2	102	0.9-5.3	2-6	198	8	97

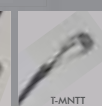

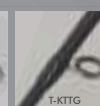

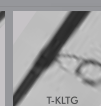

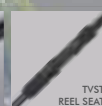

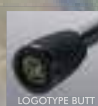

The ARTIST S 1982 UL is a two section rod that will meet all your light fishing requirements. The blank is ultra-light, responsive and fast. Great for working small plugs like the Squad Minnow, Squirrel, Tiny Fry, TricoRoll and Chubby. The rod is also suitable for ultralight soft lure rigs like weightless, drop shot, light jig head or split shot rigs. The responsiveness of the blank makes this the perfect rod for perch, zander, black bass and sea bass fishing. The top quality Japanese blank is fitted with the latest ultra-light FUJI TORZITE titanium «K» rings. These are great for distance casting and eliminate any chance of the line getting caught round the rings whilst fishing. These innovative rings help lines and braids last longer. A light TVST reel seat completes the set-up. The V shaped handle maximises contact with the blank both from the top and along the sides of the handle. Supplied in a bespoke bag and a rigid Cordura protective tube

THE ARTIST S 210 M REF: 01511

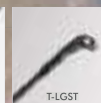

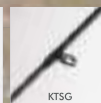

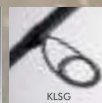

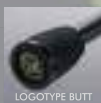

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	2	109	5-25	4-14	210	8	130

The ARTIST S 210 M is a two piece spinning rod. This is without doubt the most versatile model in our range but it has been developed first and foremost as a plug fishing rod. Its action lends itself to all light soft bait styles such as weightless, light jig head, light Texas or heavy drop shot styles. Mounted using Fuji SIC K series anti tangle rings combined with an ergonomic skeleton reel handle that keeps your hand in direct contact with the blank itself.

THE ARTIST S 210 MH BLACK SHADOW REF: 01857 **NEW**

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1+1	174	7-28	6-16	210	8	109

The ARTIST S 210 MH rod is a light yet powerful spinning rod designed specifically for fishing softbaits when you need: precision casting, sensitive tip response, great handling and extra power to get a big fish away from snags. Ideal for a number of techniques including buzzing, weightless, jighead, split shot, Texas...the perfect balance in the blank lets you fish soft baits and spinners intensively all day long. The tone of this blank is perfect for big perch, zander, black bass and sea bass. Top quality Japanese blanks finished with the latest FUJI components. The rod is mounted with FUJI TORZITE titanium K series rings eliminating any chance of the line catching whilst casting and the latest TVST reel seat which has the following advantages: ultra-light, "V" shape gives great grip on the handle that is so important for accurate casting and finally direct contact with the blank on top and on the sides of the rod for better bite detection. Supplied with an elegant signature rod bag in a rigid Cordura protective tube.

THE ARTIST S 210 H REF: 03083 **BACK**

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1+1	177	10-40	10-25	210	9	135

Top of the range spinning rod that is light, powerful and exceptionally responsive. The ARTIST S 210 H has been developed for intensive lure fishing where you need accuracy, sensitivity and lightness for comfort coupled with a steely reserve of power to handle bigger freshwater and sea species. Zander, pike and sea-bass anglers will appreciate the exceptional responsiveness of the rod especially when using heavier soft baits. Top quality Japanese blank coupled with the very latest fittings such as Fuji SIC K rings to eliminate the risk of tangling and a skeleton reel seat to keep you in direct contact with the blank. Comes with a monographed rod bag and a rigid Cordura protective tube.

THE ARTIST S 225 M BLACK OPS REF: 01885 **NEW**

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1+1	187	7-21	4-14	225	8	123

The ARTIST S 225 M BLACK OPS is a rod that exudes class and quality. A light powerful spinning rod designed for softbait fishing with techniques that require: discretion, accuracy, comfort and power (weightless, straight retrieve, drop shot, Texas light rig, split shot, light jig head...) The action is supremely versatile and lends itself just as well to casting small plugs and surface lures. Top quality Japanese blanks finished with the latest FUJI components. The rod is mounted with FUJI TORZITR titanium K series rings eliminating any chance of the line catching whilst casting and the latest TVST reel seat which has the following advantages: ultra-light, "V" shape gives great grip on the handle that is so important for accurate casting and finally direct contact with the blank on top and on the sides of the rod for better bite detection. Supplied with an elegant signature rod bag in a rigid Cordura protective tube.

THE ARTIST S 240 MH REF: 03121

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	2	124	10-40	12	240	9	164

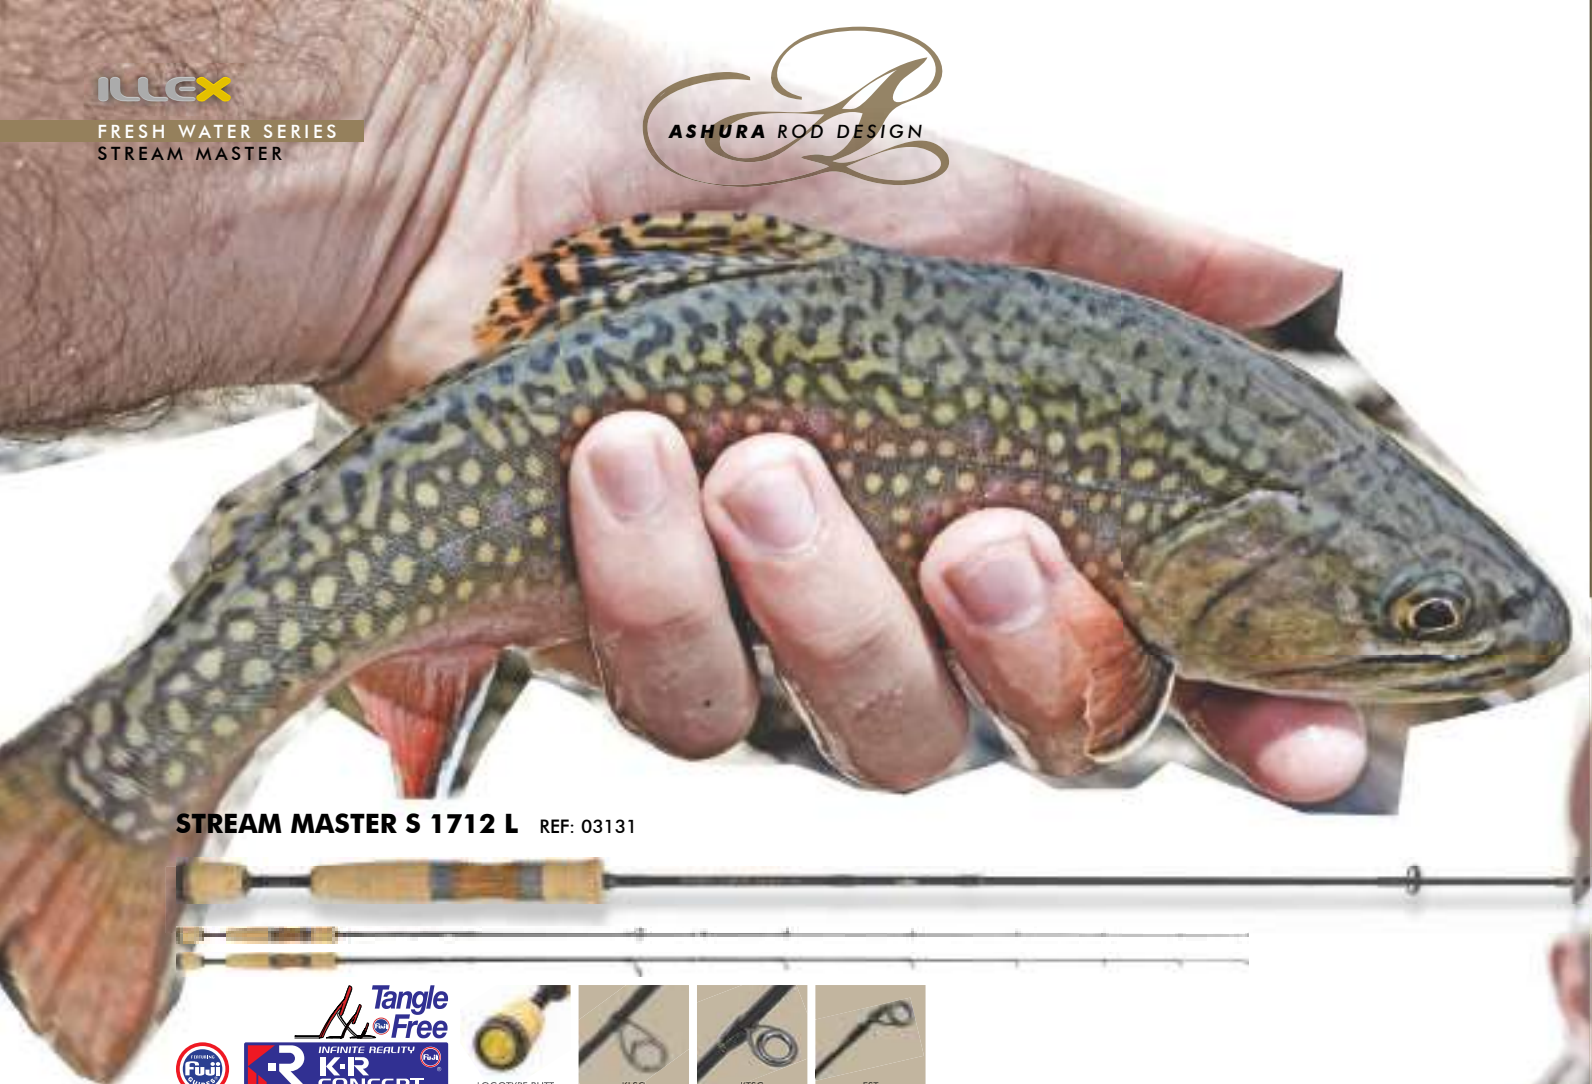

An exceptionally tactile rod that is fast becoming a reference point for serious sea-bass and zander anglers fishing either from boats or the bank. The rod has the right length and power to cast any type of plug or soft bait a long way with unerring accuracy. The action of the rod lends itself to meticulous control of lures and soft baits fished deep and slow. Top quality Japanese blank coupled with the very latest fittings such as Fuji SIC K rings to eliminate the risk of tangling and a skeleton reel seat to keep you in direct contact with the blank. Comes with a monographed rod bag and a rigid Cordura protective tube.

THE ARTIST S 270 MH REF: 03126

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	2	139	15-50	16	270	9	177

The ARTIST S 270 MH is first and foremost a rod for fishing from the bank or shore. The powerful nervous blank will cast lures from 15 to 50 g a long way with ease and accuracy. The positive tip action allows you to work surface lures like minnows with ease and control and detect the slightest knock or rattle when fishing soft lures. The power in the bottom of the blank is more than a match for hard fighting sea bass or pike. High-spec Japanese blank coupled with the very latest fittings such as Fuji SIC K rings to eliminate the risk of tangling and a skeleton reel seat to keep you in direct contact with the blank. Comes with a monographed rod bag and a rigid Cordura protective tube.

**STREAM MASTER S 1712 L** REF: 03131

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST REGULAR	2	88	1.5-5	2-6	171	7	84

This is sure to be the first rod of choice for all ultra-light fishing situations. The Stream Master 2 1712L has been specifically developed for UL lure fishing for trout with lures like Tricoroll Minnow 47/55: Tiny Fry 38/50 and Chubby Minnow. The rod is also fantastic with spoons like the York Mini and New York. The rod's action is best when twitching any lure back. Recommended by our testing team for stream fishing situations and tackling small to medium rivers. High tech Japanese Fuji SIC K rings reduce any chance of the line tangling round your rings.

STREAM MASTER S 2102 ML REF: 08814

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	2	109	2.5-15	3-8	210	9	116

The new STREAM MASTER S2102 ML has been designed with big salmonoids on medium and large rivers in mind. The blank is perfect for using big, dense plugs like sinking minnows between 50 and 80mm long. The rod has the power to control big lures in deep powerful flows where the biggest fish often patrol. The surprisingly light blank will fish smaller minnows or large softbaits like the Method Shad 2 on a loaded head with ease but has the power to handle lures over 70mm long without being under-gunned. There is a lot of power in the butt section which helps control hard fighting river fish like shad, salmon, sea trout and big brown trout. Fitted with the latest Fuji «K» rings that stop lines and braids from tangling whilst casting. Supplied in a bespoke bag with a PVC protective tube

NEW

INCURVED STREAM MASTER WOODEN NET REF: 02065

SIZE (CM)	LENGTH (CM)	DEPTH	Ø MESH	LANDING NET SIZE

STREAM MASTER S 250 ML REF: 01887 **NEW**

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	2	129	7-28	10-16	250	8	133

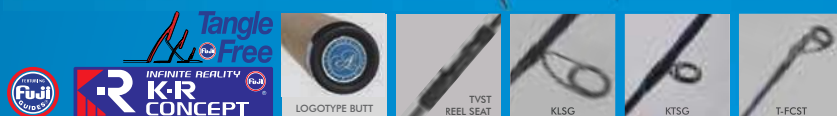

The STREAM MASTER S 250 ML was originally developed for sea trout anglers in the Baltic Sea fishing from boats, float tubes or kayaks. The rods are also versatile enough to be used for shore fishing for big trout using plugs. These rods are perfect for fishing bigger Tricoroll lures and targeting big trout and salmon. The action is versatile and the rod is also great for handling surface lures (Bonnie, Water Moccasin, Water Monitor..) and other plugs (Squad minnow, Squirrel..) to target other hard fighting species like asp. Finished with Fuji K series rings, eliminating any chance of the line catching whilst casting, and the latest TVST reel seat which has the following advantages: ultra-light, "V" shape gives great grip on the handle that is so important for accurate casting and finally direct contact with the blank on top and on the sides of the rod for better bite detection. Supplied with an elegant signature rod bag in a deluxe PVC protective tube.

STREAM MASTER S 290 M REF: 01891 **NEW**

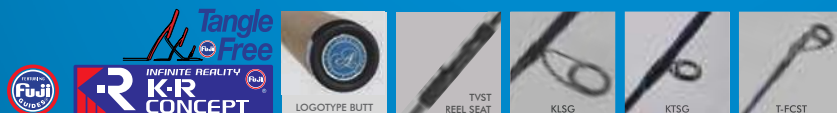

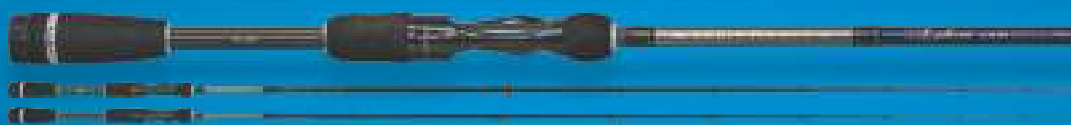

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	2	149	10-35	12-20	290	9	161

The STREAM MASTER S 290 M is a 2 piece rod designed for shore anglers after big trout, sea trout and salmon. The rod is extra-long, responsive and powerful. This rod will cast the biggest Tricoroll lures a long way and keep you in control of the lure right the way back. The blanks have a good reserve of power to subdue hard fighting big fish. The rod is finished with the latest FUJI fittings. SIC "K" rings to eliminate any risk of tangling whilst casting and an IPS-KN reel seat which is extremely comfortable to hold. Supplied with an elegant signature rod bag in a deluxe PVC protective tube.

DELIVRANCE S 198 ML POWER FINESSE II REF: 02024 **NEW**

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1+1	170	1.8-12	3-8	198	8	101

There is no doubt that our new DELIVRANCE S 198 ML POWER FINESSE is THE reference rod for all light fishing styles (weightless, split shot, drop shot, light vertical, wacky rig, darting ...) The action is both powerful and ultra-sensitive - ideal for fishing around snags. The steely sensitivity in the blank is also perfect for working all sorts of plugs like surface minnows, long bill minnows, crank baits, vibration lures and small blades. The rod is finished with Fuji K series rings eliminating any chance of the line catching whilst casting and the latest TVST reel seat which has the following advantages: ultra-light, "V" shape gives great grip on the handle that is so important for accurate casting and finally direct contact with the blank on top and on the sides of the rod for better bite detection. Supplied with an elegant signature rod bag in a rigid Cordura protective tube.

DELIVRANCE S 198MH SHAKING RIG SPECIAL II REF: 02027 **NEW**

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1+1	171	5-28	6-16	198	8	112

The S198 MH SHAKING RIG SPECIAL is a power spinning rod at heart but with an extra "punchy" action that lends itself to soft bait styles like weightless, split shot, heavy drop shot, jig head, tube etc. The rod has the power to be fished round dense cover and get big fish out with ease. The versatile action suits vertical fishing with soft baits and general lure fishing with plugs. The rod is finished with Fuji K series rings eliminating any chance of the line catching whilst casting and the latest TVST reel seat which has the following advantages: ultra-light, "V" shape gives great grip on the handle that is so important for accurate casting and finally direct contact with the blank on top and on the sides of the rod for better bite detection. Supplied with an elegant signature rod bag in a rigid Cordura protective tube.

DELIVRANCE S 210 L MINNOW SPECIAL REF: 03176

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	1 + 1	176	1.8-10	3-8	210	9	129

Ultra light and ultra responsive- this rod is perfect for all delicate fishing situations. The blank is crisp enough to accurately cast small lures a long way, vital when looking for wary trout and perch. Fantastic for working small minnow style plugs like Tricoroll, Colt Minnow, Squad Minnow, Tiny Fry or Chubby. The rod is equally at home targeting perch with ultra light soft lures fished weightless, light drop shot, light jighead or light linear styles. Great too for stalking chub with surface baits like Woodlouse. The rod has been finished using the latest high-tech Japanese fittings. Fuji SIC K rings eliminate any risk of the line catching round the rod rings and a skeleton reel seat reduces weight and keeps you in direct contact with the blank. Supplied with a monographed holdall with a rigid protective tube finished in cordura.

DELIVRANCE S 210 M CRUSHER REF: 01559

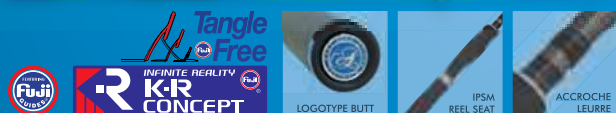

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	2	109	5-25	4-14	210	8	116

Versatile 2.10 m rod that will cast any type of lure with unerring precision.

DELIVRANCE S 240 MH CRUSHER REF: 01561

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	2	124	10-40	12	240	9	157

At 2.40m long this rod will cast all types of lures a long way. The action of the rod ensures that you can accurately and methodically work your lure when working deeper linear retrieves.

DELIVRANCE S 270 XH DEEP STRIKE REF: 01894 **NEW**

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	2	139.5	20-100	40	270	9	208

The DELIVRANCE S 270 XH DEEP STRIKE has been developed specifically for targeting big fish with big baits like Dexter Shad from the shore. The rod is powerful, responsive and well balanced and will handle plugs and softbaits of between 20 to 100g. The rod has the steely backbone needed to transmit the slightest animation straight to the lure and plenty of power in reserve to tackle big catfish or even light tropical fish. Mounted on top quality Japanese blanks with the latest FUJI fittings, Fuji SIC "K" rings to eliminate any chance of tangling on the cast all finished with double whippings. An EVA grip with a IPSM/KDPS reel seat gives you great control of the rod and a comfortable and secure grip when playing big fish. We recommend that you team your rod up with Nitro PE Salt Water 40lbs braid. Supplied with an elegant signature rod bag in a rigid Cordura protective tube.

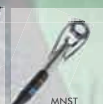

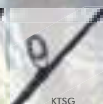

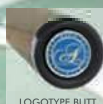

DELIVRANCE B 198 MH V2 COVER MASTER REF: 08816

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1 + 1	165	7-28	8-16	198	10	134

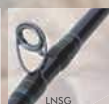

The DELIVRANCE B-198 MH V2 Cover Master is the perfect tool for intensive spinnerbait or crankbait sessions. The action has the softness needed to soak up lure vibrations coupled with the power required to strike cleanly and boss fish away from cover. The rod will also handle all power softbait styles (weightless, jig head, Texan) A great rod for all bass, pike and zander anglers. The rod is fitted with the new PTSMPs reel seats that are ultra-light and designed to give an excellent grip that is vital for accurate casting. The reel seat also keeps you in direct contact with the blank so any knock or tap from fish can be detected. Supplied with a bespoke rod bag and a rigid protective rod tube in Cordura.

DELIVRANCE B 2102 M WATER FRONT VERSATILE REF: 08834

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
FAST	2	108	8-25	6-12	210	10	134

The DELIVRANCE B2102 M Water Front Versatile is a two section baitcasting rod best suited to medium sized plugs like Squad Minnow, Squirrel, Cherry, TN, Water Moccasin. This is the most versatile of our rods equally at home bank or boat fishing. 2.10M is the ideal length for distance casting and the fast action makes the rod easy to use and very accurate. There is enough power in the blank to control hard fighting fish like asp in a fast flow. The rod is fitted with the new PTSMPs reel seats that are ultra-light and designed to give an excellent grip that is vital for accurate casting. The reel seat also keeps you in direct contact with the blank so any knock or tap from fish can be detected. Supplied with a bespoke rod bag and a rigid protective rod tube in Cordura.

DELIVRANCE B220 XH V2 BIG BAIT SPECIAL REF: 03186

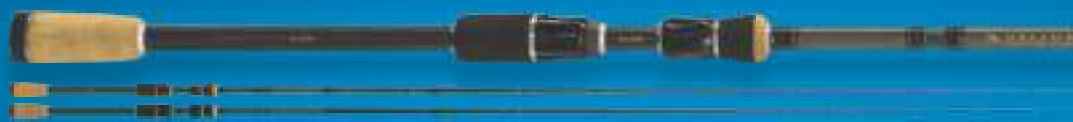

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1 + 1	182	14-100	16-30	220	10	174

We have updated this new version of the Deliverance B220 Big Bait Special by making it even more powerful! Designed with both big lures like spinnerbaits and swimbaits and large soft baits such as the Dexter Shad in mind. An ultra powerful action keeps you in total control of hooked fish. The rings are set on a spiral to avoid braid from touching the blank. This rod is recommended by all of our team for all extreme freshwater situations. Comes with a special monographed holdall and a protective Cordura tube

DELIVRANCE B 250 XXH THE WILD DOG REF: 08836

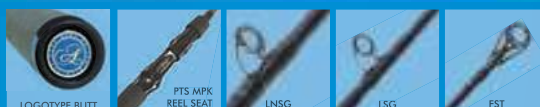

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	1 + 1	202	MAX 180-200G	50-80	250	9	242

The DELIVRANCE B250 XXH Wild Dog has been specifically designed for specimen pike anglers. Ideal for fishing with big lures and XXL shad baits like the Dexter Shad 250 and the new 340 size! Some fibreglass has been used in the blank to give more comfort on casting and soften the impact of lure vibrations. Thanks to its length and the power when compressed you can launch baits a long way out which can be a real advantage on clear overfished lakes. The second advantage of using some softer fibreglass can be appreciated when playing fish. The rod will soak up the head shakes of hard fighting fish keeping hook pulls to a minimum. Wild Dog is the rod you want to tackle your dream giant pike and catfish! Supplied in a bespoke rod bag and a rigid protective tube in Cordura

DELIVRANCE S 2104 MH VERSATILE POWER SPIN REF: 08838

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	4	57	7-35	6-14	210	8	127

The DELIVRANCE S 2104 MH Versatile Power Spin is a 4 section travel rod. Great for all power spinning applications from the bank or on a boat - targeting hard fighting Irish pike for example. The fast action makes it suitable for soft bait fishing with a variety of rigs (heavy drop shot, linear, Jig Head, split Shot, weightless). Equally at home fishing plugs and spinnerbaits like Crusher, Squad Minnow, magsquad or Arnaud. The 2.10m length is perfect for accurate distance casting. Fitted with FUJI «K» series rings to eliminate the chance of line tangling when casting no matter what the weather. A skeleton reel seat has been used which is ergonomic, light and keeps you in direct contact with the blank. Supplied in a bespoke rod bag with a PVC protective tube

DELIVRANCE B 2104 MH SEVEN ELEVEN REF: 08864

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	4	57	7-35	8-16	210	8	168

The DELIVRANCE B2104 MH SEVEN ELEVEN is a 4 section travel rod that is light yet powerful. A versatile rod that will tackle any bank fishing situation or boat fishing for Irish or Swedish pike, for example. The ultra-fast blank is perfect for plug fishing with lures like Crusher, Minnows, Squad minnow, MagSquad and Arnaud and jointed baits like the Deka- Hamakuru. Also great for softbait styles that require accuracy, sensitivity and some power to get big fish away from trouble safely say around reed beds or lilly pads (Buzzing, weightless, linear, Texas Rig.) The rod is fitted with the latest FUJI PTSMPK reel seat which gives excellent grip so vital to accurate casting coupled with excellent contact with the rod blank. Supplied in a bespoke rod bag with a protective tube in PVC.

DELIVRANCE B1903H V2 MONSTER JERK SPECIAL REF: 03194

ACTION	SECTION	SIZE (CM)	LURE (G)	LINE (LB)	LENGTH (CM)	GUIDES (QTY)	WEIGHT (G)
EXTRA FAST	3	69	20-100	16-30	190	10	167

This Monster Jerkbait Special Travel Edition has been purpose built for the globetrotting big pike angler. Designed for fishing with big jerkbaits. The blank has the length and the power needed for a Heavy action rod whilst still being light enough to handle easily. This new version packs away even smaller making it easy to take with you on your travels. Comes with a special monographed holdall and a protective PVC tube.

SPORTSTER is a high quality, versatile Japanese line developed specifically for lure fishing. This supple and strong line combines low stretch for ultimate sensitivity with exceptional abrasion resistance. The use of Polyamide+ technology helps you read every contour of a swim and helps you strike cleanly even in very deep water. The low-viz olive green colour is very discrete in the water. Supplied in 150m spools with a marker at 75m. Quality spooling in parallel coils.

Spools of 150M to 250M. NITRO PE POWER GAME 8 strand Japanese braid. Two tone blue and yellow. Our top end Japanese braid has been specially developed for all lure fishing (plugs, light soft bait fishing, jigging, vertical and linear styles) This round profile braid is made up of 8 strands of '100% polyethylene. Two tone blue along 4.9M and yellow for 0.1m to get optional precision and control of your lure. Super strong and fine this braid has all the qualities demanded by modern sport anglers: accurate casting, power, sensitivity, discretion and low wind resistance.

FLAT BONE JOINTED BIG BAIT CLICKER

ACTION : **ROLLING**
MODEL : **FLOATING**
WEIGHT (G) : **48.0**
DEPTH : **0 - 0.3M**
SIZE (MM) : **220**

FLAT BONE CLICKER

01	BLACK & PIKE	29115
02	HL PERCH	29116
03	JUNGLE BLACK	29117
04	VISIBLE SPAWNING TIGER	29118

The Flat Bone Clicker is premium jointed big bait. It's wiggling elastomeric tail, articulated body and lipped head helps you get a controlled dog walking action. This tight swimming trajectory helps keep the lure on course when worked very close to snags or man made structures where large fish are likely to be posted. When worked straight back the lure has a strong rolling action which will entice deep posted fish to come up in the water and investigate!

HAMAKURU R

ACTION : **WOBBNROLL**

05	RED BLUE GILL NEW	06686

The GANTAREL is a super realistic lure that has several strings to its bow! The 3 sectioned body has a balanced action that looks for all the world like a pumpkin seed fish. This attractive action is boosted by the addition of teasers and feathers fixed onto the hook rings. The two pectoral fins act like diving bibs and let the lure dive down to a depth of 1 metre. A rolling swivel has been added to the line attaching ring to eliminate any chance of line spin. A second ring situated on the upper lip lets you modify the action of the lure or add an extra weight to convert the GANTAREL into a slow sinking swimbait. There is a third eye on the lures tail which will take an extra hook or a teaser lure. The GANTAREL is also able to turn round 180 degrees after a single twitch. This amazing lure has so many fish puling features!

TOPWATER CUPRAP NOISY-PENCILBAIT

NEW

ACTION : CRAWL, WALKING THE DOG, SPLASH

MODEL : FLOATING

WEIGHT (G) : 21

DEPTH : SURFACE

SIZE (MM) : 97

CUPRAP

01	MAT TIGER NEW	06674

04	CLEAR BLEAK NEW	06671

05	BONE NEW	06672
06	HL VISIBLE PERCH NEW	06673

The Cuprap is a lure that knows how to get noticed! A topwater "crawler" style bait with a metal oversized lip that pushes loads of water and causes a swaying swimming action. Further fish attracting provocation is provided by the propeller at the rear of the lure that crackles and pops water as it turns. Glass beads add an extra rattle to the mix. Any predator lurking in a nearby weedbed or cruising at mid depth will be drawn to all the commotion and is unlikely to resist the Cuprap's charms for long!

02	JUNGLE BONE	13137
03	JUNGLE BLACK	10986
04	MAT ATOMIC CHICK	10987

The Pompadour is an astonishing surface lure! It imitates creatures that move across the surface film of water, from frogs to reptiles or even small rodents. The lure is fitted with two blades which alternate the direction of swim and a small blade on the rear of the body which adds turbulence to the wake of the lure. A rattle system adds a noise attraction to the lure and a weight transfer system to help accuracy and distance when casting. The hooks are also positioned in such a way as to reduce hook pulls. Particularly effective on bass and pike the Pompadour will take any predator hunting in the upper layers of the water.

Chubby POPPER 42

ACTION : WALKING THE DOG, POPPING, SPLASH
MODEL : FLOATING
WEIGHT (G) : 3.3
DEPTH : SURFACE
SIZE (MM) : 42

CHUBBY POPPER 42

01	NF ABLETTE	10647

05	PERCH	10649

06	GRASSHOPPER NEW	00051
07	TONOSAMA	12159
08	BONE	10648

This small popper is an updated version of the CHUBBY. Simply fantastic when predators are chasing prey of the same size as the lure (larvae, amphibians or fry). Compact and well proportioned, the lure casts like a dream thanks to its internal weight. The Chubby popper has a walking the dog type action and will splash and pop with ease imitating frightened prey. Any popper worth its salt needs to sit well when stopped. To recreate the look of the tail of a prey fish or an insect's wings, the lure is fitted with a feather hook- sure to fool the wariest of chub or black bass.

SK-POP

ACTION : WALKING THE DOG, POPPING
MODEL : FLOATING
WEIGHT (G) : 6.5
DEPTH : SURFACE
SIZE (MM) : 53

SK-POP

02	CLEAR BLEAK NEW	00002

03	HL WAKASAGI	11028
04	JUNGLE BLACK	11029
05	PEACOCK	83816

06	HL AGGRESSIVE BASS	83859
07	BONE	94082

Seiji Kato created the SK Pop using all his knowledge to create the perfect popper bait. The SK Pop is compact, well balanced and can be cast with the precision of a guided rocket thanks to the position of its internal weight. Easy to work with a dog-walking action, it makes a perfect pop and splash imitating closely hunted fry and will trigger predators strikes even from deep waters. Those special effects are due to Seiji Kato's innovations. He added two small cavities in the hollow concave mouth of this popper. This lure can also be terribly efficient when just stopped and hung in the water during slow retrieves.

SK-POP GRANDE

ACTION : WALKING THE DOG, POPPING
MODEL : FLOATING
WEIGHT (G) : 9.0
DEPTH : SURFACE
SIZE (MM) : 65

SK-POP GRANDE

06	HL AGGRESSIVE BASS	86379
07	BONE	94432

The SK Pop Grande is the long version of the SK Pop. This popper keeps the same essential specificities as its smaller brother. The lure pops and splashes like a dream and it is easy to get a dog walking style action thanks to the longer body. It's the perfect complementary tool in your tackle box when you know big fish are likely to be your quarry.

Binksy

Produced by Naoto Kawaguchi
Big Noise! & Big Splash! High Appeal Popper!!

ACTION : WALKING THE DOG, POPPING, SPLASH
MODEL : FLOATING
WEIGHT (G) : 12.4
DEPTH : SURFACE
SIZE (MM) : 70

BINKSY

06	GIANT COCKROACH NEW	00100
07	HL PIKE	31438
08	JUNGLE BLACK	31436

Binksy is a thoroughbred surface lure that really gets itself noticed! Fished as a popper or a propbait the lure gives off plenty of noise that is sure to send predators wild! The moment a Binksy lands on the water it looks attractive to fish with its teaser tail feather. Once moving the propeller coupled with a blade and hollow head section call out the diner gong for waiting predators. Flash, turns, noises and vibrations. This lure does all it can to grab the attention of patrolling fish. Get ready for a rush of pure adrenaline as you watch a big predator slurp this bait clean off the surface!

Chubby PENCIL 55

The Bonnie was designed to cover large areas of water quickly and easily locate fish. Fitted with tungsten beads that help long accurate casting and give off an unusual and seductive noise attraction through the water. This lure is equipped with the triple eye attachment system that lets you change depth simply by swapping which the eye the lure is fixed to. 4 separate chambers are used to house the tungsten beads to get the balance of the bait as close as possible to traditional wooden lures,

The Water Monitor is a sinking pencil bait that is great when you want to catch fish that are just not prepared to attack in the surface layers. The lure's body is divided in ten oblique chambers to create a semi-solid structure built in ABS plastic. The bait can be worked dog-walking style or tried in a more unusual snake like trajectory. A versatile lure for all seasons

14	FIRE CHARTREUSE	10787
15	VISIBLE TROUT	10788

The Arnaud is the first jerk bait which has been designed and tuned by Seiji Kato specifically for European waters. After long research and field tests, he gave this lure a very specific swimming action. A powerful rolling motion combines with erratic speed variations. This lure will entice big fish out from cover and provoke positive takes. Perfectly balanced for twitching and jerking, it will turn and flash in all directions just like a distressed prey fish.

DDARNAUD 100 SP

ACTION : **WOBBLING**
MODEL : **SUSPENDING**
WEIGHT (G) : **17.7**
DEPTH : **3M**
SIZE (MM) : **100**

14	FIRE CHARTREUSE	10837
15	VISIBLE TROUT	10838

When it comes to tackling fish which are not actively feeding or wary from angling pressure, The DD Arnaud is THE solution. This long bill minnow will dive to 3m and react positively when you jerk - turning over and flashing in all directions imitating wounded or panic action of a bait fish. Easy to cast, it has a trajectory that can best be described as a tight wobble.

The squad minnow is a jerkbait which blends perfectly all the ingredients needed to trigger a strike. The weights in this lure are fixed which allow you to stop the bait dead still during a retrieve. This is often enough to trigger a following fish to strike. The lure can also be made to repeatedly dart on the retrieve allowing you to vary the retrieve from a dog walking action to a sudden twitching and darting movement. The fixed leads are also a great help for accurate distance casting.

The Squad Minnow series has been enhanced with 3 new sinking heavy weight (HW) models. Originally developed for bass fishing in Japan these lures have now proved their worth with European freshwater anglers on large lakes and major rivers. The extra weight helps gain valuable metres in casting distance and improves accuracy plus it allows you to spend longer scraping the bottom on each cast looking for deep posted fish.

MAGSQUAD

HIGH POTENTIAL VERSATILE JERK BAIT

ACTION : **WOBBNROLL**

15	VISIBLE SPAWNING TIGER	11675

The squad minnow promptly became a must-have jerkbait for demanding tournament pros, especially among the US bass fishing elite. The great demand for the larger model encouraged us to develop two new sizes (115 and 128 mm) which we have called the mag squad. Despite the longer length the lure still retains a slender profile. Very stable in action and responds well to many different rod movements. The sound and vibration attraction has been carefully balanced with a combination of metal and glass rattles to draw predators' curiosity.

The Squirrel is the most versatile jerkbait in our range. When you twitch the squirrel back with short knocks on the rod tip the lure takes on a squirring motion which is particularly noticeable when worked over a snag. This unpredictable and occasionally frenetic swimming action is remarkably close to that of a distressed prey fish.

14	ALBINO RAINBOW	11755

The deep diver Squirrel is the long billed version of the Squirrel. When this Longbill Minnow reaches its optimum depth it will start staggering on every rod movement flashing just like a dying fry. Not only you can work it classically like a regular crankbait on a steady retrieve, you can also easily try a kick back jerk keeping your rod tip high while jerking on a slack line.

The tiny fry was designed to give of strong vibrations similar to a crankbait. What makes Tiny Fry so attractive is its amazing wriggling action.. Easy to use twitching or jerking, it imitates perfectly a panic-stricken fry. The sides of the lure will flash on the slightest rod movement without the lure jerking off course. Its unique body shape makes the Tiny Fry an excellent bait for holding steady in a flow.

At last! A slow sinking version in our flagship ultra-light range! This lure is already a celebrated fish catcher in its original version and you can now work it through every level of the water column! Perfect for fooling those wary well educated fish.

The Tricoroll is one of our favourite baits. This little minnow has been specially designed for fast water trout fishing and has all the characteristics needed to become an ultra-light classic!

- Ultra realistic finish
- Perfectly balanced body that is stable in fast water
- 4 different densities: F = Floating. This version will allow you to float a bait along with the current without getting snagged up in vegetation or snagged up in very shallow water. SP=Suspended. Particularly effective in steadier rivers when predators are sitting just under shoals of fry. S=Sinking. This sinks slowly and HS=Heavy sinking; faster sinking version. Both models are very accurate casters and let you spend time working over likely looking spots.
- Rolling action that is just as deadly on slow or fast retrieves. The flanks will shimmer at the slightest twitch or pull.
- Very easy to work with twitches and jerks.
- OWNER treble hooks

07	LMDLT NEW	00387
08	LMDLT MOONSTONE	13871

The 67HW is our latest addition to the Tricoroll family. It is a sinking minnow with a flat body and a pronounced wob'n'roll action on both slow and fast retrieves. Designed for fishing medium to large rivers for quality trout. The lure will hold its depth in deep and powerful flows but can also be worked over shallow riffles. When cast $\frac{3}{4}$ downstream the force of the flow is enough to gently oscillate the lure. You can let the lure drift naturally with your rod high and follow it downstream giving the odd lift on the rod tip to speed the lure up. Vary this with a more classic twitch and jerk retrieve to provoke a wary trout into having a chew on something different.

05	CHROME YAMAME NEW	01558
06	VAIRON	30588
07	HL MAGIC YAMAME	30589

The new Tricoroll models 72HW and 83HW- have been designed to cast further and fish deeper to tempt big lake trout, sea trout and salmon with a larger bait. The lures have all the great features of our smaller tricoroll lures the 47 and 55 HW's. A well balanced body that holds in a flow, great rolling action and they are easy to animate with simple twitches and jerks. These baits really do resemble prey fish in flight. The new larger sizes are also perfect for sea bass fishing on the Med or Atlantic coastlines.

NEW Tricoroll GT 72 SR F

ACTION : **WOBBNROLL**
MODEL : **FLOATING**
WEIGHT (G) : **5.7**
DEPTH : **0.60M**
SIZE (MM) : **72**

TRICOROLL GT 72 SR F

04	PINK YAMAME NEW	08944

05	CHROME YAMAME NEW	08945
06	VAIRON NEW	08946

The Tricoroll GT 72 SR F Gravity Transfer is the shallow diving version in our GT series. The lure has been designed to maximise weight transfer for better casting across side winds or into headwinds and to help you gain a few vital extra metres on each cast. The flat sides catch the light and sparkle in big open waters. The swimming action is unpredictable and looks like a wounded prey fish staggering near the surface. Sure to attract the curiosity of predators posted in deeper holes or hiding in bankside cover. This lure is great for salmon and trout but also asp and sea bass from the shore

Tricoroll GT 72 MD F

ACTION : **WOBBNROLL**
MODEL : **FLOATING**
WEIGHT (G) : **6.6**
DEPTH : **0.80-1.20M**
SIZE (MM) : **72**

TRICOROLL GT 72 MD F

01	NF ABLETTE	29547

05	CHROME YAMAME NEW	01518

06	VAIRON	29549
07	HL MAGIC YAMAME	29550

New version of the Tricoroll GT (Gravity Transfer) lure that helps you cast further. The lip has been specially designed to dive deep whilst still retaining the classic rolling action of all the Tricoroll lures. The buoyant body helps the lure rise quickly off the bottom which is handy when working close to snags. The sharp upward lunges also give an erratic action to the lure which is very close to that of a distressed prey fish.

NEW Tricoroll GT 88 MD F

ACTION : **WOBBNROLL**
MODEL : **FLOATING**
WEIGHT (G) : **10.8**
DEPTH : **1M**
SIZE (MM) : **88**

TRICOROLL GT 88 MD F

01	NF ABLETTE NEW	11700
02	STRIPE AYU NEW	11701

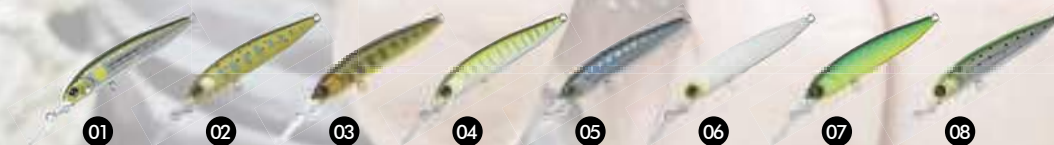

03	HL RAINBOW TROUT NEW	11702
04	PINK YAMAME NEW	11703

05	CHROME YAMAME NEW	11704
06	VAIRON NEW	11705

This new larger Tricoroll GT Gravity Transfer lure is designed for long distance casting. The size and shape of the Tricoroll GT 88 MD F has been developed to provoke takes from big trout and salmon posted on the bottom, from big brown trout in large powerful rivers and sea trout and salmon in estuaries. These same characteristics are equally good for targeting sea bass from the shore. The lip has been designed to dive quickly and get the lure down to decent depths whilst all the time keeping that characteristic pronounced Tricoroll rolling action. The lure is buoyant and will come up quickly after each dive which will keep it away from unwanted snags and give an unpredictable swimming action close to that of fleeing prey.

DE-PUP

ACTION : **WOBBNROLL**
MODEL : **FLOATING**
WEIGHT (G) : **1.8**
DEPTH : **0.80M**
SIZE (MM) : **47**

DEPUP 47

01	STRIPE AYU	05745
02	TRUITELLE	05747

03	HAKU GOLD TROUT	05748
04	VAIRON	05750
05	STRIPE ABLETTE	05743

06	BONE	05744
07	MAT TIGER	05746
08	VISIBLE TROUT	05749

Our new DEPUP 47 is a longbill minnow ideally suited to targeting trout, chub and perch. The long bib lets you dive the lure to maximum depth and also helps deflect it away from snags. You can also make use of the high buoyancy of the lure near snags by letting the line go slack to bob the lure over hidden branches and blocks. Fitted with two single barbless hooks perfect for no kill fishing!

Midia

ACTION : **WOBBNROLL**
MODEL : **FLOATING**
WEIGHT (G) : **2.8**
DEPTH : **1.20 M**
SIZE (MM) : **53**

MIDIA 53 F

01	STRIPE AYU	03383

05	VAIRON	12308

06	STRIPE ABLETTE	12303
07	MAT TIGER	12306
08	BONE	12304

The Midia 53F has been developed first and foremost as a trout lure for powerful, fast flowing rivers. The specially designed shape of the lip allows the lure to dive easily and work the middle and deeper layers of bigger rivers. The lure has a deadly roll with a strong flank movement. The body of the lure is buoyant which helps it rise rapidly when bounced over the bottom, great for generating unbalanced, erratic movements similar to a panicked prey fish. Triple Owner hooks

05	STRIPE ABLETTE	20604

06	BONE	20605
07	UL KANABUN	20606
08	UL BUG	94316

This surface and sub surface crank has been called back into the catalogue by popular demand. This lure imitates a large insect or small reptile moving across the water. Fish posted under riverside vegetation or snags will attack such surface lures aggressively if they are presented over their heads. Trout anglers work this type of lure 3/4 upstream and 3/4 downstream from each bank.

Mitts

ACTION : **WOBBLING**MODEL : **FLOATING**WEIGHT (G) : **1.5**DEPTH : **0-0.10M**SIZE (MM) : **28**

06	HAKU GOLD TROUT	05418

07	VAIRON	05420
08	MAT TIGER	05416
09	BONE	05414

This tiny flat crank was originally developed for reservoir fishing for salmonoids but quickly found favour as an UL lure on rivers and lakes for other predators. This buoyant bait resembles a distressed prey fish floundering in the surface or just under it giving off different levels of wake. A realistic fish eye has been fitted close to the single barbless hook to give attacking fish a focus point.

DEKA Mitts DRY

NEWACTION : **WAKE ACTION**MODEL : **FLOATING**WEIGHT (G) : **2.1**DEPTH : **0-0.05M**SIZE (MM) : **33**

DEKA MITTS DRY

01	STRIPE AYU NEW	03017
02	LADYBIRD NEW	03018
03	BUMBLE BEE NEW	03019
04	GRASSHOPPER NEW	03020

The Deka Mitts is sure to prove a favourite lure for arousing the opportunistic interest of chub, black bass, perch and trout. This buoyant bait is designed to imitate a small prey trapped in or just below the surface and can be fished to give off varying amounts of wake. The signal eye on the tail of the bait near the hook gives fish a better target for their attack.

TAPDANCER

NEW

ACTION : **TIGHT ROLLING**
MODEL : **SINKING**
WEIGHT (G) : **3.7**
DEPTH : **0.50M ET +**
SIZE (MM) : **31**

TAPDANCER

01	STRIPE ABLETTE NEW	01684
02	CLEAR BLEAK NEW	01685
03	CHROME SHAD NEW	01686
04	NATURAL SHAD NEW	01687
05	PERCH NEW	01688

The TAPDANCER is a new generation of plug bait designed to dive without a lip. Best worked with a series of sharp twitches that will generate a tight rolling action on each upward pull followed by fast head-first dives. The idea is to bounce the lure along the bottom in a series of hops to attract the attention of nearby predators. The innovative design means it never lies on its side but always on the throat with the hooks clear of the bottom to give greater hook penetration should a fish takes the lure as it stops. Sure to provoke takes from trout and perch as well as smaller sea species and great for working round structures or in deeper holes in small rivers.

BOTTOM DART MINNOW DARTRUN

ACTION : **BOTTOM DART**
MODEL : **SINKING**
WEIGHT (G) : **3.4**
DEPTH : **1M**
SIZE (MM) : **46**

DARTRUN 46 S

01	STRIPE ABLETTE	26253
02	CLEAR BLEAK NEW	01416

03	CHROME SHAD NEW	01417
04	NATURAL SHAD	26255
05	PERCH	26256

06	MAT TIGER	26257
07	BONE	26254

The DARTRUN is a sinking lipless plug that lives up to its name by darting erratically in all directions imitating perfectly a panicked prey fish. Once paused it sinks head first and fast but if you tighten the line it will come up horizontal and look very natural. Sure to attract the attention of trout, perch and small sea predators attracted by its lively and precocious action. Great for deeper venues, vertical fishing and in fast flowing canyons.

TURBINE 70

Hybrid Sound Flatside Shallow Crank Bait

ACTION : WOBBNROLL

MODEL : FLOATING

WEIGHT (G) : 12.6

DEPTH : 0.5-1M

SIZE (MM) : 70

TURBINE 70 F

01	NF ABLETTE	07910
02	BONE	83967

03	CLEAR BLEAK NEW	01446

05	TABLE ROCK PERCH	29441

06	MAT TIGER	85890
07	VISIBLE SPAWNING TIGER	29442
08	JUNGLE BLACK	29443

The Turbine is the first of a new generation of crankbaits designed by Seiki Kato. The blade, propeller and internal beads give off powerful vibrations in the water designed to provoke predators into aggressive takes. A slender epoxy lip gives a vibrant, powerful swimming action that does not interfere with the blade or propeller turning properly. The hooks have been fixed directly onto the body without any split rings which stops the hooks moving and helps avoid them snagging when working round obstacles.

10cc

HIGHT IMPACT FAT CRANK

ACTION : **WOBBNROLL**
MODEL : **FLOATING**
WEIGHT (G) : **9.5**
DEPTH : **1M**
SIZE (MM) : **50**

CHERRY 10 CC

01	NF UKELEI	20527

04	PERCH	84146
05	MAT TIGER	84147

06	JUNGLE BLACK	07879
07	GHOST AYU	20528
08	VISIBLE SPAWNING TIGER	20529

With its 10cm cubed of bulky body, this new Illex crankbait works the upper layers with a pronounced and lively wobbling action. Perfect when prospecting a lot of water looking for fish. It will turn and roll without getting snagged, bumping over stumps and rocks where big predators hang out.

Cherry

FARM POND Deep CRANK 48

ACTION : **WOBBNROLL**
MODEL : **FLOATING**
WEIGHT (G) : **7.8**
DEPTH : **2M**
SIZE (MM) : **48**

The diving cherry is a crankbait which will dive and work is way down to 2 meters. The action of the lure can best be described as rolling. On a steady retrieve over rocks and submerged trees you'll love how it twists and threads through obstacles to entice hidden fish.

DDcherry

FARM POND Deep CRANK 55

ACTION : **WOBBNROLL**
MODEL : **FLOATING**
WEIGHT (G) : **11.2**
DEPTH : **3M**
SIZE (MM) : **55**

The deep diving cherry is a fat crankbait capable of diving up to 3 meters. The DD Cherry is one of the best deep diving crankbaits around thanks to its frantic action and distinct wobble. With a slimmed lip and increased buoyancy it's easy to use in heavy cover without getting snagged. Perfect for bumping over snags or along the bottom.

03	TABLE ROCK PERCH	13858
04	JUNGLE BLACK	13859

05	HOT TIGER	25357
06	IMPACT CRAW	25358

Fitted with a noise generator, the Aska 70 SR is a crankbait developed specifically for highly pressurised waters. This impressive looking crankbait will incite predators that are lazing in the upper layers or round weedbeds. The action combines an intense rolling movement with a pronounced wobble that will displace enough water to agitate predators that have learnt to refuse smaller cranks - provoking savage takes from big pike, perch and bass.

06	HL RED CRAW	03458
07	VISIBLE SPAWNING TIGER	03459

Mascle Deep crankbaits are equipped with a weight transfer system in order to improve long distance casting. A long reinforced lip allows it to swivel easily over stumps and rocks that you'll hit fishing in cover or bottom cranking. A stocky body and a swimming action that is 80% wobbling and 20% rolling make it possible to sneak into obstacles without getting snagged up. Despite the fact that the Mascle deep is a long lip crankbait it has relatively low resistance on the retrieve so it will not tire you out working this lure all day.

Chubby VIBRATION 40

ACTION : **WOBBNROLL**
MODEL : **SINKING**
WEIGHT (G) : **4.8**
DEPTH : **0.50M +**

04	PEACOCK	94027
05	HL PIKE	84236

06	MAT TIGER	84088
07	VISIBLE SPAWNING TIGER	04869

This range of lipless crankbaits stand out for their excellent casting ability. But what makes the TN series even more remarkable is their exceptional stability at various retrieve speeds. The lure gives you a very clear picture of what is on the bottom thanks to the special out metal system. Here the mouth of the lure has been specially weighted to bounce lip first over the bottom. This system helps the lure to swivel around snags and then get back in line quickly preventing the hook snagging up.

OUT METAL SYSTEM PAT **Silent** TN/60

ACTION : **WOBBLING**

01	HL WAKASAGI	25483	03	BLUE BACK TIGER	25487
02	CHARTREUSE SHAD	25484	04	SPRING CHART	25485

Lipless crankbait ideal for working over large open areas of water. The absence of any noise attraction renders this lure particularly useful on waters where fish are under heavy pressure and back off rattles. Whilst it may give off no rattle this lure generates strong seductive vibrations which will shake the most lethargic of predators into action. The tungsten head is the same as on the noise generating model so you can position the lure perfectly on the bottom and feel every movement.

TN^{OUT METAL SYSTEM} SLIM 8

NEW

ACTION : **TIGHT ROLLING**
MODEL : **SINKING**
WEIGHT (G) : **12**
DEPTH : **2M ET +**
SIZE (MM) : **80**

TN SLIM 8

01	NF ABLETTE NEW	12040
02	CLEAR BLEAK NEW	12041

03	BONE NEW	12042
04	PERCH NEW	12043

05	MAT TIGER NEW	12044
06	MAD CRAW NEW	12045

This new version of the TN has a more slender and discrete silhouette. Sure to be a big hit with classic TN fans. The body shape casts well and its appeal is universal attracting freshwater and sea predators. The lure benefits from our ingenious loading system around the lips, the Out Metal System that has several advantages. Firstly you can read the bottom more directly, secondly the lure sits very naturally in a flow and finally the loading acts like a plug lip allowing the lure to roll over snags without getting the hooks caught and get back into position quickly. Three small tungsten bearings in the stomach cavity give off deep vibrations. A Hyper-8 is fitted to the tail of the lure and gives you the option to add a blade to slow the descent speed and increase its visual attractiveness. This is particularly useful on big lakes. Worked back on straight retrieves or faster power fishing style to cover deeper open water sections quickly. Try giving saw teeth type twitches of varying strengths. For vertical fishing try working the lure like a small softbait with simple pulls and vary the timings of your pulls and pauses.

04	HOT TIGER NEW	05819

The new generation Mask Vib Gene has all the characteristics of a small prey fish. It stands out from other Vibration lures thanks to its rubber body that gives an extremely realistic suppleness to the lure. The powerful and provocative vibrations that the lure gives off even when drifting in a flow can be toned down when fish are more reluctant to take. This coupled with the slim tail and the supple body shape can get bites when fish are proving difficult to catch. The Mask Vib Gene is great at drawing out fish posted in structures or snags such as around quay sides or sunken trees and weedbeds.

The KeeBurn is a fantastic vibrating blade with ultra-realistic details and perfectly finished colour schemes. Constructed with a printed circuit board style back panel above a solid metal stomach section. The blade starts working faster than a classic blade once it hits the water and this ultra-fast reaction time helps set off surprisingly strong pulsing and lively vibrations. The shape and weight are designed for distance casting and its compact size imitates perfectly small prey fish. Ideal for targeting a range of predators on big, open venues. Available in two sizes.

03	WHITE & CHART NEW	08362
04	FIRE TIGER NEW	08363

Surface fishing has to be the most exciting way of catching fish! Amongst all the lures designed for surface fishing the Buzzbait stands out from the crowd. Our new Derabuzz is a compact finesse style buzzbait that comes into its own when the water surface is bursting with activity. Work it back slowly just under the surface film or faster straight across the top the Derabuzz imitates perfectly the noise of a feeding fish that will provoke a take from bigger predators posted beneath the surface. The small propeller adds to the noise attraction and the hook is ultra-sharp and designed to keep hook pulls to an absolute minimum.

07	RESEVOIR SHAD	87855
08	SHIRASU	87856

The Super Pin Tail has been developed using the same traditional manufacturing process as the cross Tail Shad. The body shape perfectly imitates fry fish and the vibrating pin tail adds an extra element of attraction to any fine or ultra fine rig. The perfect bait for fooling the wariest of predators!

06	PRISM LIME CHARTREUSE	25518

Flashing & Rolling Action « Diffuse reflection » inner scale Developed to imitate a fry in every detail this lure is a must when predators are focused on small fish. The flat sides give an impressive rolling action for such a small lure. This rolling allows the numerous sparkles impregnated in the rubber to flash. The small split tail reacts even when the lure is still allowing you to hang the lure in the water and work a post very slowly. Can be mounted on a light jig head or fished as a live bait rig. The Jazzy Fish 3" is the perfect choice when you feel it is time to downsize!

The new Glossy Shad 3.8 is the perfect bait for difficult clear water conditions. The realism built into this lure is simply breathtaking! It looks for all the world like a small fresh fry fish! Tiny sequins have been injected into the lightly painted body to give a transparent feel to the bait and reflect attractively in different light conditions. Two fixed eyes complete the impression of total realism.

AmmoniteShad 4.5"

MODEL: **SINKING**
WEIGHT (G) : **12.9**
QTY/PACK : **6**
SIZE (MM) : **114**

AMMONITE SHAD 4,5"

01	NATURAL CANDY	81873
02	CHART/LIME CHART FLAK	81875

The Ammonite shad is no ordinary shad softbait - it is a real fishing machine! An articulated caudal section gives off stronger underwater vibrations than standard shadbaits and generate a wider, more pronounced swimming action. The profile of the dorsal section has been designed to suit offset hook rigs like weightless or Texas. The bait can be fished just as successfully on a straight weighted jighead or as a trailer bait. A rattle can be inserted along the flanks of the bait if needed making the ammonite shad a bait whose versatility is matched only by its fish pulling power!

AmmoniteShad 5.5"

MODEL: **SINKING**
WEIGHT (G) : **19.7**
QTY/PACK : **5**
SIZE (MM) : **140**

AMMONITE SHAD 5.5"

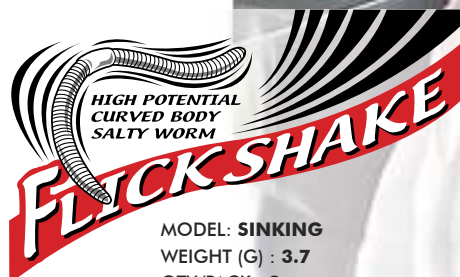

01	NATURAL CANDY	00174

03	NOIKE GILL	00178
04	SK MAGIC SHAD	00180

05	PRO BLUE/MELON SILVER	00179
06	BLUE GILL	00173

This lure was seen everywhere last season and its back this year in a longer version designed specifically for big pike. 14cm long this lure gives off more vibrations than ever and has the same galloping sort of swimming action as the 3.5 and 4.5 versions. Works a treat for sea bass fishing too! Designed to give big fish a mouthful they just can't resist!

4.8"

MODEL: SINKING
WEIGHT (G) : 3.7

03	WATERMELON PEPPER	05268
04	CINNAMON SOLID	05269

05	PUMPKIN PURPLE PEPPER	05270
06	PURPLE WINNIE	05271

The flickshake is one soft lure that fish cannot resist for long because it is an imitation of that most natural of baits - the lobworm! Hooked straight through the middle and fished on a downshot rig or with a brusheasy head the naturally curved body of this lure will waft gently when stopped and respond to the slightest twitch on the line. Fantastic fished on wacky rigs, the Flickshake is a real fishing machine when it comes to perch, zander and black bass but will also catch trout, chub and even barbel ... in fact any fish that will have a go at a worm!

4.5"

04	SUYAMA BROWN	32249

05	HIYAKE MELON	32250
06	COLA	32251

Here is a technical worm bait designed for catching black bass in snags. A lot of salt has been incorporated into the body material which makes the body unusually dense. The lure casts well and can be pitched and skipped with ease. Rigged on a Texan, heavy Texan or jighead you can cast into dead trees and snags to look for fish. The lure will sink fast once in the target zone and the large paddle tail will displace plenty of water. Get ready to hook plenty of bass and big perch!

02	MOEBI BLUE	26593
03	BLUE GILL	26595

04	CLEAR SHRIMP	26596
05	PEARL WHITE	26597

For United Rock & Street Finesse Methods The Vector Bug is great mounted on a small loaded head but it is simply unbeatable when fished on a micro jig. Originally developed as a trailer lure this creature has proved its worth over and over again on all classic set ups. The lure has a natural and graceful action in the water. Adding to this attractiveness are vibration-exuding appendices like the two club feet that drum the water and the scythe shaped antenna that emits surprisingly strong vibrations for a lure of this size. Fish will often attack during long pulls when the claws start vibrating imitating a crayfish taking flight. A great small lure that no self respecting bass, perch or chub can refuse.

The Scissor Comb is a distillation of all the elements likely to arouse the interest of a predator. Ultra mobile appendages, ribbed body for extra fluidity, worm shape, flavoured rubber and realistic colour schemes... This lure has all the ingredients to provoke a look from the most apathetic and wary predators. Great fished on Carolina rigs, for drop shooting, split shot rigs, on a jig head etc. The Scissor comb is the ultimate irresistible morsel and stays attractive even when completely still. This will get you out of jail when the fish are totally disinterested and conditions really tough.

CHUNK CRAW

NEW

3.5"

MODEL: SINKING
WEIGHT (G) : 8.2
QTY/PACK : 6
SIZE (MM) : 89

CHUNK CRAW 3,5"

01	BLACK/BLUE NEW	06191

03	GREEN PUMPKIN/CHART NEW	06193

04	SI MAKKACHIN NEW	06194
05	SI GREEN PUMPKIN/ORANGE NEW	06195

New for this year, the Crank Craw is sure to be a hit with fans of jigging and Texan rigs. The shape of the lure is very close to the size of a real crayfish and this accurate mimicry is carried through every detail. The end of each claw is fitted with two appendages that give off powerful vibrations and slow the bait as it lands. You can use weights of 10 or 14g and still be ultra-precise on your casting. The appendages can be removed to give the lure a more natural, swaying action and get it to sink quicker. The rubber we have used strikes the perfect balance between softness and strength.

WaverShrimp

MODEL: SINKING
WEIGHT (G) : 2
QTY/PACK : 8
SIZE (MM) : 70

2.8"

WAVER SHRIMP 2,8"

04	CINNAMON SHRIMP	26485

05	CHART/LIME CHART FLAKE	26486
01	GLOW PINK/SILVER FLAKE	26487

For Bait Finesse Method For any kind of rig The Waver Shrimp 2.8 has been designed to imitate a small crayfish or large prawn. This bait is totally realistic both in its appearance and swimming action. Developed for ultra light rigs the Waver Shrimp offers even the wariest of predators a tit-bit that is hard to resist. The legs and claws are so soft that they vibrate even when the bait is held still. The attractant impregnated into the Waver Shrimps body even adds scent to the realism. Perfect with a small weighted head or fished on a drop shot or Neko rig. This is sure to become a must-have lure for quick session street anglers looking for marauding big perch.

WOODMINNOW 45 FACTION : **WOBBNROLL**MODEL : **FLOATING**WEIGHT (G) : **2**DEPTH : **0.10-0.50M**SIZE (MM) : **45****WOOD MINNOW 45 F**

05	LMDLT NEW	02455
06	GOUJON NEW	02456
07	WHITE&BLACK YAMAME NEW	02457

Shad type bait that sinks quickly and has a very tight swimming action thanks to a slender fibreglass lip. A versatile lure that can be fished in deeper pools or in faster, powerful currents where big trout and salmon love to feed.

AWB YORK MINI

MODEL: **SINKING**

WEIGHT (G) : **1.5**

QTY/PACK : **1**

SIZE (MM) : **35**

AWB YORK MINI 1,5G

01	AYU	10763
02	YAMAME	10764
03	RAINBOW TROUT	10765
04	BLACK & GOLD	10766
05	PEARL CANDY	10767

Our York Mini has a lazy looping action through the water. On the descent the lure oscillates with a provocative rolling movement that is often enough to provoke an immediate take from a trout holed up near an obstacle or the margins. This slender lure lends itself to small to medium sized rivers in particular later in the season when trout get wary of classic lures. Great on relatively slow shallow rivers and surprisingly effective for reservoir fishing.

STREAM ROLLER

HIGH PERFORMANCE CRAFT RIVER LURE

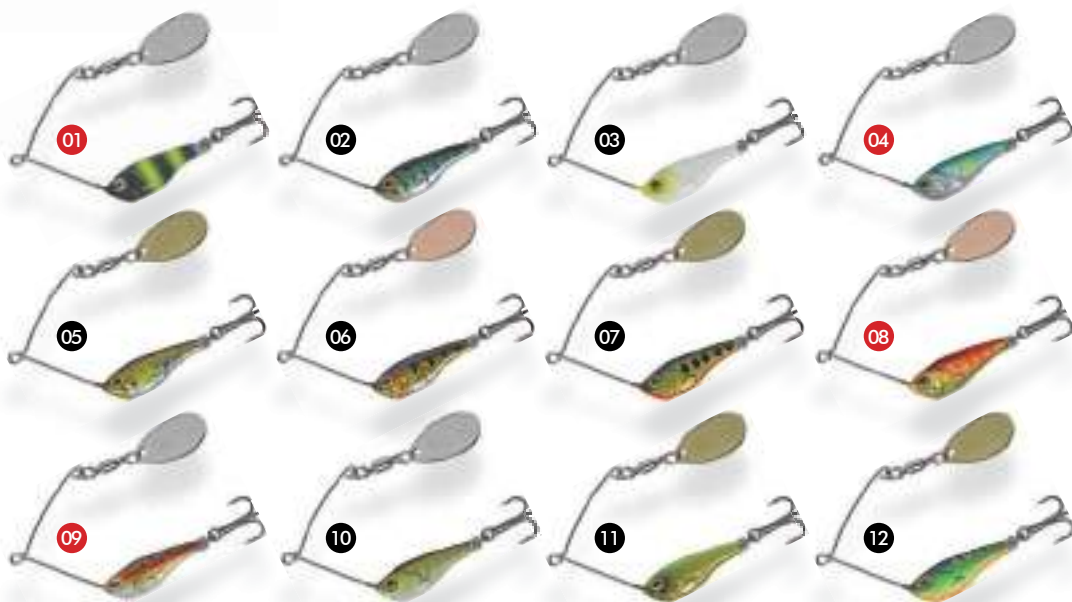

MODEL: **SINKING**

12	MAT TIGER	07210

This is the latest must have micro spinner for all trout and salmon anglers. The latest lure technology has been used to create the ultimate river spinner. Bismuth-Tin weights make the lure easy to cast and ultra-stable in the water. The blade turns with the slightest flow without ever causing line spin and gives off strong vibrations that allow you to work the lure very slowly through fish holding pools. Fished free-falling style will provoke reaction bites from perch, chub and zander along quaysides and other urban structures.

SCREAM SERIES**DEXTER JERK70**

06	PERCH	79584	12	PRETTY PERCH	79579

At last here is the new small brother in the Dexter family! A bait you can switch to when you need a more delicate approach to your jerk fishing. This 70 version is a real versatile lure and can be used anywhere as its size and shape imitates a wide spectrum of prey fish. Fishability is a key feature as the Dexter jerk 70 is easy to fish even for beginners. Vary your retrieves with slow pulls, pauses and jerks or even fished walking the dog style. You will quickly work out which way the fish want it on any given day. The lure is dense and sinks quickly allowing you work through the various layers of the water column rapidly.

DEXTER JERK120S

05	RUDD	87593	10	MAD PERCH	15309

Dexter Jerk is fast becoming a name synonymous with big pike right across Europe. And with good reason! This new 120 version will quickly join its bigger brother in notching up impressive big pike catches. These lures are easy to fish with and beginner or expert can quickly vary presentations with slow draws, quick pulls, walking the dog retrieves under the surface. It will not take you long to work out exactly how the fish want the lure presented!

DEXTER JERK120 SP

ACTION : **SLIDING & WALKING THE DOG**
 MODEL : **SUSPENDING**
 WEIGHT (G) : **56.5**
 DEPTH : **0.10-0.50M**
 SIZE (MM) : **120**

DEXTER JERK 120 SP

01	GOLD ARWANA	11184

05	MAT PEARL AYU	11188

06	MAT CHART	11189
07	MAT TIGER	11190
08	MAT BLACK	11191

A new Dexter jerk designed specifically for fishing at any speed on shallow waters like polders and meres or over the top of weedbeds. This suspended model is a real pike magnet either brought back dog walking style or jerked with frequent pauses just under the surface. The lure has a very specific deep vibration in water which can provoke savage takes so brace yourself and enjoy!

DEXTER TAIL

DEXTER TAIL QTY/PACK: 1

01	SMOKE BROWN CLEAR / GG	11573
02	SMOKE CLEAR / SG	11574
03	FLUO YELLOW	11575
04	FLUO ORANGE	11576

There are times when the weather is so bad you struggle to keep control of a jerk in heavily drifting water. This is where the Dexter Tail comes in. It is a tail you can add onto your Dexter Jerk which increases the size of the lure without adding to the weight. In strong drifting water this increased size gives you more hold on the lure and consequently adds to the attractiveness of the bait as it displaces more water and makes more noise as you fish. The Dexter tail is perfect when added to a Dexter 120 or 148 and the heavy-duty fixing system means you can add this tail to other jerks as well.

DEXTER JERK 148

ACTION : SLIDING & WALKING THE DOG

MODEL : SINKING

WEIGHT (G) : 100

DEPTH : 0.1-1M

SIZE (MM) : 148

DEXTER JERK 148

08	CLOCKWORK ORANGE	65549
09	SUNDANCER	65543
10	PEARL BONE	04193
11	GOLD YAMAME	65547

The DEXTER is the first lure from our new Scream range. Designed specifically for big pike the DEXTER will also handle freshwater tropical species as its body is reinforced with stainless steel wire! During testing this lure accounted for a record 17.5kg Aimara. A noiseless slow sinking lipless minnow. The DEXTER has the same meticulous finish as the Arwana (3D holographic eyes, large scales design on each flank, pronounced pectoral fins). Each detail has been studied to lure wary large predators. The chunky flat sided body is perfectly balanced thanks to a fixed lead insert. This insert gives the lure a pronounced rolling action which accentuates the attractive flashing flanks. Being slow sinking the lure spends longer in the middle water layers giving plenty of time to waiting predators to spot and attack the lure!

07	CLOCKWORK ORANGE	06958
08	RED CRAW	06959

The first thing that strikes you about the new lipless Dexter Vib 120 crankbait is its size. This is a big lure. In the water a pronounced rolling action coupled with the reflective flanks trigger aggressive takes from big pike, perch, zander and catfish. Extremely realistic with 3D eyes, clear scale markings and a pronounced pectoral fin. This noise-emitting lure is available in both floating and sinking version letting you cover all the water layers and work round difficult swims such as the edge of weedbeds where big predators stay posted. The floating version allows you to work round roots and branches. This is a very buoyant lure and pops back up to the surface quickly making it easy to control round semi-submerged snags. The slow sinking version allows you to scrape the bottom even on fast retrieves. The swimming action helps keep the hooks clear of underwater snags where big fish often lie waiting.

03	GOLD CARP	04235
04	PIKE	04236
05	LIME CHART	04238
06	FIRE TIGER	04239

The Crusher is a top class spinnerbait designed with pike in mind but will also attract other fish like big black bass or perch. Two willow blades are mounted on a 1mm stem tough enough to stand up to the most aggressive big fish attacks. The Willow blades give off pulsating vibrations and work from the moment the lure hits the water. The head design guarantees a very stable action particularly when fishing off ledges freefalling style or for working back through weedbeds. The Crusher has all the element needed to be a genuine 4-seasons lure!

NEW CRAZY CRUSHER

HOOK: 5/0
MODEL : **SINKING**
WEIGHT (G) : 21

CRAZY CRUSHER 21G

01	BLUE AYU NEW	06126
02	BONE NEW	06127
03	FIRE TIGER NEW	06128
04	CLOCKWORK ORANGE NEW	06129

The Crazy Crusher 21G is a chatterbait designed with meticulous attention to detail. The intricate head in Bismuth Tin (lead free) is preceded by an articulated 45 degree blade that allows the bait to bump round snags and gives off attractive vibrations. A silicone skirt adds volume to the lure that starts vibrating as soon as it touches the water. The design team have added a clever wire lug that allows you to attach the hook to the head with a bit of silicone tubing to keep it clear of snags. Designed mainly as a pike bait but big black bass, perch, zander and even catfish have fallen for its charms.

Dexter Eel is the latest addition to our exciting Scream range of baits designed specifically for selecting big predators. This eel shaped lure has certain features of the classic Dexter Shad, in particular the rubber used that is soft but strong and totally impregnated in Nitro®Booster shellfish attractant. The swimming action has been designed to give an alternative to classic Shad type lures. Dexter Eel gives off low frequency waves that can be detected by big fish some distance away. The lure can be cranked fast to cover plenty of water or worked slowly round known fish holding zones. This works well on older fish that will see a slow moving Dexter eel as an easy meal! Originally developed for pike the lure has also proved its worth as a catfish catcher

At 15cm long this smaller Dexter Shad is perfect for freshwater fishing as a cranking shad or as a vertical lure. Impregnated to the core with shellfish «Nitro®Booster» attractant. The rubber used is soft enough to be taken confidently by fish but strong enough to resist being shredded by teeth even of sea fish. The body shape gives a distinct rolling movement to the lure and the soft tail moves at the slightest nudge on the line. The lure gives off strong vibrations in the water that his find irresistible. The proof is the number of fish each year that are banked on Dexter Shads!

At 20cm long this Dexter Shad is the ideal size for vertical fishing as a cranking shad. Flavoured to the core with "Nitro®Booster", our famous shellfish attractant. The materials used are soft so fish can swallow the bait easily but also tough enough to resist being chewed by different attacking fish, even sea species! The body shape gives a pronounced rolling action and the large soft tail works at the slightest touch of the rod. Few predators will resist its charms and this is borne out by the consistent results achieved by this lure.

DEXTER SHAD 340ACTION : **WOBBNROLL**MODEL : **SINKING**WEIGHT (G) : **149**QTY/PACK : **1**SIZE (MM) : **340****DEXTER SHAD 340**

05	PIKE	32008
06	ATOMIC CHICK	32009

Designed mainly for selecting specimen freshwater fish like big pike and catfish this lure will also draw the attention of sea fish like cod, pollock and halibut. The Dexter Shad 340 is soaked to the core in shellfish Nitro® Booster attractant. The materials used to make the lure are soft enough to be readily swallowed by an attacking fish but firm enough to resist their razor sharp teeth. The shape gives a distinctive rolling action to the lure and the extra-long and soft tail section will vibrate with the slightest movement or change in retrieve speed creating strong pulsing vibrations that fish find hard to resist. Great when fished cranking-shad style and used to work round vegetation and sunken trees!

Tying out the new Jivaros® Swimbait head already fitted with a 250 Dexter Shad! The 28g weight in the Jivaros® head will stabilise your lures and maximise casting distances with big baits. The head design lets water through it which adds to the vibration attraction sending off strong and realistic signals to cruising fish. The sliding set up lets the lure slide up the line during a fight which results in less fish coming unhooked and your softbaits lasting a lot longer! There is a complex bead balancing system in the head that rattles if you jerk the bait or increase your retrieve speed suddenly!

WEIGHT (G) : **88**

QTY/PACK : **2**

SIZE (MM) : **250**

Developed to target specimen pike the dexter Shad is a very realistic looking soft lure flavoured with our trademark shellfish attractant Nitro Nooster. The materials used are very supple and soft yet tough enough to be skipped round overhanging foliage and stand up to the teeth of big fish. The body shape of the Dexter gives off a pronounced rolling action with any form of loaded head. Particularly attractive is the extra large tail that generates strong vibrations on the slightest of movements. Dexter's' seductive action is most effective on linear retrieves and for working round overhanging vegetation and sunken trees where fish will be stationed in gaps between branches.

Our great new « hand poured » Dexter Shad range has been developed in close collaboration with Kay Steinwerth, fishing guide and Team Illex member known for his experience tracking big pike and zander based at Rungen in Germany. He is famous for using lure colours that work on the ultra violet spectrum. This range of Dexter Shad UV baits are characterised firstly by their extremely tender rubber and a range of 6 colours developed for very precise water conditions:

- Glowing specialist= Highly coloured water
- UV bomb = Coloured waters and morning and evening sessions
- Zander special = Lightly coloured waters particularly tinged green
- Motoroil special = Lightly coloured green tinged waters in bright sunny conditions
- Salt&Pepper Green Belly= Clear and slightly coloured water
- Blue&white Orange Belly = Sunny conditions and coloured waters (green or brown tinged). The hand pouring process allows us to mix two or three colours and add or omit reflective glitter whilst creating layers of contrasting colours that work at different ends of the ultraviolet spectrum. Flavoured to the core with our famous "Nitro®Booster" attractant.

			03	CHERRY COKE NEW	37559	05	MAGIC CRAW NEW	37562

The Dock Jig has been developed as the ultimate tool for discerning street anglers and is already proving its worth in top level competitions. The Dock Jig is at the cutting edge of lure research and technology and will get you takes from all our species predatory fish. Comes in a range of finishes that have been painstakingly created to mimic prey fish and fool wary and difficult fish. The lure has a silicone skirt which can be adjusted to three different lengths that adds volume and fluidity to the mobile yet subtle gliding action. Our unique jig head is made from non-toxic tungsten and is covered in micro-bobbles designed to let you read the bottom better and to disturb the sediment giving of a slight cloud as it scrapes along. Finally the Dock jig has a "Stand-Up" system built into the design that allows the lure to sit at a perfect 45° angle on the bottom by lowering the centre of gravity to get the perfect balance. This lure is a technical masterpiece, finished with painstaking attention to detail and perfect for all delicate and difficult fishing situations.

GAMBIT WOODLOUSE 1,18"

01	WATERMELON W/BL	84915	03	CHERRY COKE	79796	05	JUNGLE BOOGIE	00933
02	GREEN PUMP W/PU&CO	84917	04	BLACK W / BLUE	79799	01	MUD BUG	00934

The Woodlouse is a supple floating lure shaped like an insect designed to target smaller predators like bass, perch, asp, trout and chub. The body has a hollow cavity that give off vibrations in the water. The whole bait is designed to imitate as closely as possible a natural insect. Fit this lure on to a Finesse Down Shot or Finesse Guard no. 3 hook hooking it though the head between the two antennas. This way the lure will stay balanced. Once you let the bait go in the flow it can be worked with subtle shakes of the rod just slightly agitating the bait. The excitement when you watch a fish take it off the surface is sure to get your heart racing!

This ultra versatile Method Shad can be fished in many different ways. Texan, weightless, drop shot, Jighead or even as a trailerbait. There are no limits to the versatility of this little lure. The dorsal and ventral profile suits Texan Offset Wide Gape Weedless hooks. The body shape helps to protect both the anti weed stems and the hook making for cleaner strikes. Perfect for skipping and inching back slowly across the bottom. Depending on the size you use you can target freshwater fish or in the larger sizes sea species like bass. Available in 3 sizes.

LAUPIN

David
MENTEUR

2013 - BRONZE MEDAL AT THE WORLD BLACK BASS CHAMPIONSHIPS - BRENA BARRAGE / SPAIN
2014 - SILVER MEDAL AT THE WORLD PREDATOR BOAT CHAMPIONSHIPS - LAKE BOURGET / FRANCE
2015 - BRONZE MEDAL AT THE WORLD PREDATOR BOAT CHAMPIONSHIPS - VILJANDI LAKE / ESTONIA

David Menteur and Frederic Laupin, French national squad captain for 2015, leave nothing to chance when it comes to results. They have taken part in three World Championships and had a podium finish each time ! Their results speak for themselves yet despite different venues and different target species their success has one common factor. Illex **Nitro®Booster** attractor ! Designed to provoke more aggressive bites, the Nitro®Booster formula targets the taste senses of predatory fish. Our two champions have made no secret of how important Nitro®Booster has been to their consistent results ! Whether after black-bass, pike, zander or perch, Nitro®Booster gives them that extra edge. Our attractor is impregnated right into the rubber of baits like the Nitro® and DexterShad but also comes as a cream in handy tubes or as a spray so that all baits can be boosted quickly and effectively. Don't let bites pass you by – take a leaf from our two champions and systematically boost your softbaits and the skirts of chatterbaits and spinner baits with one of the six flavours of Nitro®Booster to put more fish on the bank!

The Nitro Sprat Shad 90 as its name suggests is a shad type lure designed for sea bass fishing. It is extremely supple and looks ultra-realistic with a lifelike swimming action and strong vibrations. The rubber has been flavoured to the core with our famous shellfish "Nitro®Booster" attractant. Our ingenious Push 2 Lock system means this bait can be mounted quickly on to a Nitro Sprat Head 90. The Push 2 Lock system houses an articulated Texan hook inside the body so the lure can be worked through snags and weedbeds without catching. The Nitro Sprat 90 head is lead free and made from zinc so kinder to the environment. As well as sea bass the Nitro Sprat 90 is great for perch and zander fishing. Don't hesitate to add more "Nitro®Booster" cream to reinforce the attractiveness of your bait.

This latest Nitro Shad is sure to become every bit as popular as the rest of the range! Developed for bass fishing, this realistic looking lure perfectly resembles a small prey fish. The small body size and supple viscosity make the Nitro Squad 90 perfect for working up in the water. We recommend that you use our leaded Nitro Squad heads between 7 and 21g coupled with an Ashura Element Rider S 210M Stalking Special rod and fish the Nitro Shad 90 using either light traction or linear retrieves. This little shad with its pronounced rolling action is also deadly for perch and zander. The lure is flavoured with our famous Nitro®Booster. Do not hesitate to add some Nitro®Booster cream to the lure for that extra fish attracting edge!

The Nitro Shad is first and foremost a lure for hunting bass traction-style, with the bait touching the bottom. The lure has already won many Labrax Cup competitions. The Nitro Shad can also be used very effectively to fish for zander and pike either jigged or worked straight back. Flavoured with Nitro®Booster shellfish attractant. This lure is best fished in conjunction with a Nitro Shad Head. The materials used in this lure give off deep resonance and strong vibrations as it is worked through the water. Do not hesitate to add more Nitro®Booster in either cream or liquid form to enhance the lures effectiveness whilst fishing!

The ILLEX Nitro Shad head has been developed specifically for using with Nitro Shad lures. Fish-like in appearance, the head's centre of gravity is slightly loaded downwards giving a gliding action on the way down and allowing the lure to rest on the bottom if wished. Perfect for naturally presenting Nitro Shad's or any other strongly vibrating soft lure. Available in 9 different weights.

Nitro Slim Shad

HIGH APPEAL SOFT SWIMMING BAIT

7"

08	PURPLE CLEAR	70515

As its name suggests this is the slimline version of the famous Nitro Shad! This long, slim version has been developed specifically for bass and pollock fishing. When these two predators are chasing sand eels they can't resist the deep oscillations given off by the Slim Shad and its ultra realistic look! We recommend you use our Nitro Slim Shad heads between 28 and 70 grams married with a rod like the Ashura Element Rider S 225 H which has the muscle to cope with vigorous traction and vertical retrieves. The lure has been flavoured with our legendary shellfish attractant Nitro® Booster and can be further boosted whilst fishing simply by adding some Nitro® Booster Cream!

NITRO SLIM SHAD HEAD

QTY/PACK : 2

				
28G 03560	35G 03561	42G 03562	55G 03563	70G 03564

This range of loaded jig heads has been developed specifically for the Nitro Slim Shad and will work wonders with any eel-like lure. The shape of the head itself resembles a fish. In the water this realism is further enhanced by the centre of gravity which gives your Nitro Slim Shad lure a natural drop through the water layers and a very stable settling on the bottom! Available in 5 sizes.

Nitr^o Bôle Shad

09	GREEN MINNOW	03988

The Nitro Bole Shad is a shad type lure designed specifically for vertical fishing for bass, pollock or stone bass in deep waters and strong currents. The Nitro Bole will also work when targeting freshwater catfish or very large pike both fished vertically or swum back normally. The lures are flavoured with nitro booster. The materials used and the special design of the 5 slits on the lure give it a slow drop and send off strong vibrations which draw predators to the bait. Easy to mount onto our special Nitro Bole heads the lure has a natural slow rolling action. Do not hesitate to boost the lure with some more Nitro booster to add to its fish pulling power!

NSJB 112

01	PURPLE CLEAR	94361
02	CLEAR AYU	94362
03	JELLY SHAD	93329

This lure has been boosted with our renowned Nitro®Booster shellfish attractant. The NSJB Shad Tails have a realistic body shape made from a very soft material which is salted on the stomach section to give the lure perfect balance when fished weightless and a killer rolling action when worked with a loaded head. Ventral and dorsal protrusions offer protection for the lure when worked through weedbeds. Can also be fished on a live bait rig and will work even better if the tail is cut back to form a sort of Pin tail. Available in 3 sizes and fantastic on all freshwater and sea species. Remember to add some cream Nitro®Booster to make this lure even more deadly!

TIGHT WOBBLING & SHIVERING JUNO EEL 5.9" FOR BOTTOM BUMPING & SHAKING

ACTION : **TIGHT WOBBLING & SHIVERING**

NSJB JUNO EEL 150

01	GLOW SIGHT FLASH	31147
02	GREEN SPRAT	31149
03	GREEN MINNOW	31150

An innovative finesse-style shad bait with that discrete caudal fin that is such a feature of all NSJB baits. This stunningly realistic bait is tapered at one end to create a slug like appearance. The bait imitates a wide range of elongated natural feed like sand eels, elvers or rag worms. Whether fishing round coastal margins, working over shallow areas of sand and rock or simply twitched behind a boat this lure will work best with small weighted heads (lightning heads or round jig heads from 7 to 10g) and can easily be set up Texan style for fishing through dense kelp or seaweed beds.

NITRO LIGHTNING 160 SLIM

01	TENNESSEE SHAD	03069
02	SEXY SHAD	03070
03	GOLD KISS	03071

The Soft jerk Lightning lures have been flavoured with our famous Nitro®Booster shellfish attractant. When coupled with a Lightning Head the lure takes on a curvy, gliding action through the water often pulling up to 50 cm in one direction before heading off in the other. It is these long glides then sudden changes in direction which prove irresistible to following predators. The supple body of the lure flexes on every change of direction adding a natural movement very close to that of a distressed prey fish. The lure has been pre drilled to guarantee that the hook sits in exactly the right position on the Lightning Head. The same semi gliding action can be used to great effect when fished vertically.

These Lightning heads have several remarkable swimming properties. Coupled with Lightning jerk lures they create an erratic and provocative swimming action. The dart type movements can be generated by sharp pulls on the rod tip or by pumping the rod sharply on the retrieve. Pumping will create some slack as you drop the rod and if you control this properly the lure will glide and change direction ready for the next pull. To increase your chances of a take in open water ILLEX have fitted and attachment to the underside of the head for a dropper hook, either attached directly to the head with a split ring or set apart from the lure with a short fluorocarbon dropper.

01	FOOTBALL HEAD TYPE 14G BLACK/BLUE		57177
02	FOOTBALL HEAD TYPE 14G BLACK/PURPLE		57179

Designed for fishing over snag free areas the « football head jig » is simple in concept but deadly effective in the water. Perfect for working over sandy bottoms or gravel areas, the head on the lure guarantees perfect presentation especially when fitted with a trailer. The skirt is free moving and gives the impression of shoaling fry. The absence of an anti weed guard helps give precise, clean striking on every fish. Available in three sizes and four colours.

ROUNDBALL HEAD TYPE WG 5,3G BLACK			54074

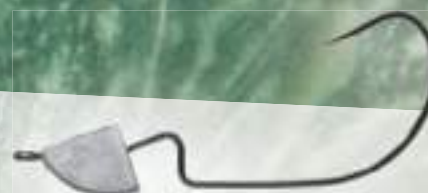

The « Round Ball Head WG » is a jig head developed for wary fish that resolutely ignore larger lures. Fitted with an anti-weed brush working round snaggy swims is easy. Pair it with a Gambit Ring Worm or an Ishad no. 2, the round ball is ideal for zander, perch, black bass and chub as well as many fish that live off rocky coastlines. Available in three sizes and three colours.

FINESSE JIG HEAD

HOOK	WEIGHT (G)	QTY/PACK	REF
1	0.9	5	93721
1/0	1.8	4	93722
1/0	3.5	4	93723
2/0	5.2	4	93724

This jig head is fantastic for all finesse rigs! The water droplet shape of the lead gives your lures the stability needed to be worked in and around obstacles. The double ring keeper will hold your lures perfectly in place even when you're getting fish after fish! Extra wide gape made from ultra hard material to guarantee clean hooking and reduce hook pulls.

TEXAS JIG HEAD

HOOK	WEIGHT (G)	QTY/PACK	REF
1	1.8	4	84077
1/0	3.5	4	84078
1/0	5.4	4	84079

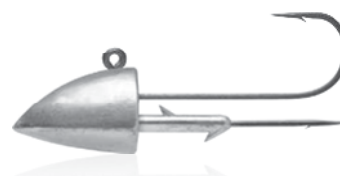

Texas Jig head that combines the advantages of a Texan rig in a single jig head. The triangular profiled head has two specific roles: 1) Stability and optimal presentation of a lure on the bottom 2) Helps the swimming jig action of the bait when worked back. Extra wide gape made from ultra hard material to guarantee clean hooking and reduce hook pulls.

STRAIGHT JIG HEAD

HOOK	WEIGHT (G)	QTY/PACK	REF

10	2	4	84114
8	3.5	3	84037
8	5	3	84038
8	7	3	84039

Straight Jig head absolutely perfect for all Illex soft lures. Available in 5 sizes. These heads are ball shaped to help cut the water quickly with a hull shaped internal profile to help lure animation. To keep the bait working and swimming freely this series is fitted with a metal needle which holds your bait in place perfectly without damaging it.

HEAVY STRAIGHT JIG HEAD

HOOK	WEIGHT (G)	QTY/PACK	REF
4/0	10	2	27762
5/0	14	2	27763
5/0	18	2	27764
5/0	21	2	27765
5/0	28	2	27766

New heavy version of our famous straight jig head designed with pike, zander and sea bass anglers in mind. Mounted on a stronger and more resistant jig hook. The heavy head has kept all the great fish catching features of a classic Straight jig notably an erratic swimming action and marked darts and dives. Available in 5 size from 10 to 28g.

**FINESSE DOWN SHOT**

QTY/PACK	HOOK	REF
10	8	93711
10	6	93712
10	4	93713
10	3	93714
10	2	93715

The Finesse Down Shot is a top quality Japanese hook. Made from strong yet light wire that will not destabilise your drop Shot rigs. Extra wide gape made from ultra hard material to guarantee clean hooking and reduce hook pulls.

FINESSE WIDE GAPE TEXAS

QTY/PACK	HOOK	REF
9	6	93700
9	4	93701
8	2	93702
8	1	93703
8	1/0	93704
8	2/0	93705
7	3/0	93706
6	4/0	93707

This Finesse wide Gape Texas hook is made from medium carbon striking just the right balance between low weight and strength. Mounted on a Drop Shot rig soft lures will sit at a 90 degree angle which helps with autohooking. Extra wide gape made from ultra hard material to guarantee clean hooking and reduce hook pulls.

STRONG WIDE GAPE TEXAS

QTY/PACK	HOOK	REF
4	5/0	84083
4	6/0	84084

The Strong Wide Gape Texas is made from reinforced carbon. Designed to get big fish safely away from snags and obstacles. Extra wide gape made from ultra hard material to guarantee clean hooking and reduce hook pulls.

TEXAS STOPPER

QTY/PACK	SIZE	REF
24	S	84576
24	M	84577
24	L	84578

A Texas Stopper is a rubber blocking bead which is designed to hold the weight on a Texan or Carolinian rig. Securing the lead on these rigs gives better bite detection and control of the rig through the water.

FLIPPIN' TUNGSTEN WEIGHTS

QTY/PACK	WEIGHT (G)	REF
1	35	30194
1	42.5	30195
1	57	30196

Round tungsten weights designed for Texas rigs. These leads let you bounce a rig round obstacles or through dense weed cover whilst letting you feel the lure at all times.

BULLET TUNGSTEN WEIGHTS

QTY/PACK	WEIGHT (G)	REF
6	3.5	84579
4	5.3	84585
4	7	84586
3	10	84587
2	14	84589
1	21	84595
1	28	84596

This tungsten bullet weight is vital for Texan and Carolinian rigs. Tooled with precision, this weight can be worked with millimetre precision round snags. A plastic tube has been fitted round the hole to protect your reel line as the weight slides. Being made from dense tungsten this weight helps you «feel» the nature of the bottom more accurately.

DROP SHOT LONG TUNGSTEN WEIGHTS

QTY/PACK	WEIGHT (G)	REF
4	3.5	29287
4	5.3	29288
4	7	29289
3	10.5	29290
2	14	29291

Cylinder shaped tungsten weights specially designed for drop shot fishing over rocks or snags. The leads can easily be bounced over any snags without any loss in sensitivity. A self locking clip is fitted above a rolling swivel so you can swap leads over easily or change the depth of your rig.

DROP SHOT TEAR TUNGSTEN WEIGHTS

QTY/PACK	WEIGHT (G)	REF
4	3.5	84598
4	5.25	84599
4	7	84623
3	10.5	84624
2	14	84628

This pear shaped tungsten weight has been specially designed for drop shot rigs and helps you to accurately read the bottom. The lead shape also helps you cast further and more accurately whilst still getting your lures quickly down to the bottom. An anti-block rolling link swivel is fitted to let you swap over drop shot weights with ease.

INSERT TUNGSTEN WEIGHTS

QTY/PACK	WEIGHT (G)	REF
12	0.3	84683
12	0.4	84629
12	0.9	84633
8	1.4	84684
8	1.8	84685
6	2.6	84686

This Tungsten insert weight lets you add extra weight quickly to plastic lures. The pointed head pushes easily into soft lure bodies and small rings help hold the weight in place. A real must-have accessory for many light lure set ups!

TRAILER HOOK RED

QTY/PACK	HOOK	REF
5 + 2 TUBES THERMO RETRACTABLE	1/0	95183
5 + 2 TUBES THERMO RETRACTABLE	3/0	95192

A trailer hook for spinnerbaits and buzzbaits. Comes with oversized eye so it can easily be slid onto the hook of any standard lure. Supplied with a silicon tube to fix it to the shank of the hook. Offset for even greater hooking ratio. It comes in red as a bleeding version for an extra visual signal under the lure.

TEXAS STRAIGHT HOOK RED

QTY/PACK	HOOK	REF
10	5/0	95246

The traditional hook shape for Texas rig style hooking of long soft plastics such as worms, lizards and crayfish. Offset for even greater hooking ratio. It comes in red as a bleeding version for extra attraction under the lure.

WIRE BAIT RING

QTY/PACK	REF
10	83921

Handy rubber ring which help holds your lure clip in place on spinners and buzzbaits.
