## 3 catalogues in 1!

You will have already noticed that our 2016 catalogue is packed with 32 extra pages of great products! The catalogue has been split into 3 separate sections: MATCH, CARPODROME and FEEDER. This will help you navigate easier through our ranges as you will find all the new products and accessories linked to your favourite style of fishing grouped together for the first time.

Some of your favourite products might have changed from their traditional place in the catalogue. If you can't find what you are looking for look through the other sections as it may have moved!

Our top team of French and International stars, Team Sensas 28, are on the bank every weekend participating in elite competitions across Europe. They are always on the look-out for new ideas and innovations that help drive our product development. Their expertise is a great source of tips and up to date advice on the very latest fishing trends.

This experience of top flight match angling is backed up with

results. Team Sensas 28 were once again crowned French team champions at Saint Quentin in the Aisne and Mark Downes won individual gold medal at the Veterans World Championships in Cabecao Portugal.

With input from top level anglers we are able to offer you the very best in high performance tackle like our new Series 5 classic poles, new ranges of high powered carp poles for both margin fishing and long pole work, exciting Feeder Tech rods and our great new Jumbo seat boxes and accessories. The list of new products is long and there is something for everybody this year!

Having hopefully whetted your appetite take some time to look through the catalogue. We hope you enjoy discovering our great new tackle for yourself.

All the team wish you a fantastic season with good results in your matches and great nets of fish!

## MINI PLUS, SHORT, EXTENSIONS

The SENSAS pole ranges are designed with flexibility in mind. Because they are all developed on the same mandrills a range of fine tuning accessories like extensions, short sections and different top kits can be used on most of our poles. So whether you have a pack worth 500 or 5000 euros you can benefit from our technology and tailor your gear to suit your style of fishing!

These are mini sections (no.5,6 and 7's) that have been developed as mini- butts to protect the original long sections when fishing at mid distances. A great idea that will protect your original kits from scrapes and knocks. Compatible with series 3,4 and 5 poles

### PROTECT MINI SECTION

Mini-sections have been designed specially to protect your longer original kits when fishing at mid-distances. Mini- sections can be used on your no.5, no.6 and no.7 sections. Mini-sections are available for Series 3, 4 and 5 poles.

There are two types of mini extension available. The simple taper or the biconic. Biconic extensions will fit two sections of your pole, for example 11M50 and 13M (equally 8.50 and 10M or 10 and 11.50M). Mini extensions are useful for adding a little extra length to your pole to help look for the odd better fish on the edges of your groundbait.

They also allow you to cut pole sections back hard to fit heavy elastics without losing on overall pole length.

Finally mini extensions are handy when you are sitting on pole sections or when shipping back into obstacles as they protect the more valuable main section of your pole from stress and pressure.

## TIPS & NO.2 SECTIONS

The shortest but by no means least important section of your pole!

The last 25cm of the no. 4 sections on Series 4 and 6 poles as well as the last 80 cm of the butt section have been reinforced with a special carbon weave. This weave helps solidify your sections where they are most often used and feels surprisingly comfortable to handle!

# KITS & ACCESSORIES

## "SUPER SLIDE" MITTENS

These mittens are made from very fine fabric that allows your pole to slide effortlessly through your hands. Very comfortable to wear these are particularly useful when feeding large quantities of initial feed using a pole cup.

## NEOPRENE MITTENS

Developed specifically for pole fishing by Jean DESQUE. These mittens let you handle a pole with surprising speed and efficiency. Ideal in hot weather, they avoid any burning from hot carbon. Equally good protecting your hands when it comes to handling catfish.

## TOP 2 AND 3 ADJUSTABLE CUPPING KITS - SERIES 3, 4 AND 5

Available as a top 2 or top 3 cupping kit for series 3, 4 and 5 poles. Ultra stiff kits which can be adjusted to any length and blocked with our new exclusive patented blocking system. Supplied with a cup. Maximum lengths: Top2 kit: 3.30m. Top 3 kit: 4.60m. Can be adjusted by over a metre ! Perfect for all ultra precise feeding situations.

## 2 IN 1 CUPPING KIT

This is a 2 in 1 cupping kit that has been pre-cut at full length for those anglers who fish with the no. 1 section of their pole. If you remove the tip section from the cupping kit it is exactly the same length as a standard no.2 - great for those who fish without the no.1 section. Very stiff and comes complete as a top 3 or top 4 cupping kit.

## CHOOSING THE RIGHT POLE 1

Over the years Sensas have developed very specific poles to meet the needs of the modern angler. It stands to reason that the best pole for speed fishing for small roach on a canal will not be the one you want for fishing big flat floats on powerful rivers or tackling specimen sized carp at a fishery. To make the choice of pole easier we have decided to give you the specifications of each model.

To begin with not all of our poles have the same diameter. In general the thinner the diameter of a pole the softer the action, the greater its diameter the more rigid the pole will be.

We have added a rigidity score to each of our poles, kits and top 2's on a scale of 1 to 5 that reads like this:

**5/5: very stiff 4/5: stiff 3/5: fairly stiff 2/5: fairly soft 1/5: very soft**

### Series 3

These poles are great for anglers who love low diameter poles. They are all made from 4G Nanoflex carbon which is 7% stronger and 4% stiffer than other carbons and an incredible average of 7% lighter! Easy to handle and lovely to fish with!

### Series 4

These poles are made from the latest Nanoflex carbons so they are lighter, stiffer and stronger than other poles. The Series 4 range has the perfect balance between stiffness and ease of handling. They feel great and fish even better!

### Series 5

The Nanoflex carbons used in series 5 poles make for lighter and stiffer poles than before. The range is enhanced by the addition of our XL-S poles. These are noticeably stiffer for more accurate striking and better pole handling particularly in windy conditions. They are all fitted with Series 3 and 4 compatible kits.

# POWER MATCH SERIES 5 XL / XL-S

Our Nanoflex Carbon Series 5 pole range has just got better! There are now two versions to choose from. The XL classic range is ultra- light and stiff and designed for general silver fish pole work. The XL-S models are stiffer for extra strength and control designed especially for fishing in challenging conditions such as strong winds.

## **N** POWER MATCH NANOFLEX 95 XL POLE

The 95 is our flagship XL pole. Ultra light yet strong, This pole will find favour amongst top match anglers looking for the best possible compromise between weight and stiffness. Simply the best there is on the market!

# POWER MATCH SERIES 5

These poles have been built using new Nanoflex carbons to achieve lighter and stiffer poles designed for top level classic match fishing. The sections are slightly shorter than the 5 XL and 5 XL-S poles.

## POWER MATCH NANOFLEX 895

The flagship of our shorter section Series 5 range. Designed for top flight match fishing. Handles brilliantly, ultra responsive on the strike and the lightest pole in this series. This is a seriously good pole!

### CROTALE 30 LANDING NET HANDLE

Take-apart glass landing net handle. Will cope with fish of all sizes! Available in 3 and 4 metre lengths.

**HANDLE**

### CROTALE LANDING NET HANDLE

Landing net set comprising the CROTALE 30 handle and a landing nett head. Available in 3 and 4 metre lengths.

**HANDLE**

### CROTALE 130 LANDING NET HANDLE

Take apart carbon landing net handle that is lighter and stiffer than the Crotale 30. Suitable for carp/drome and river fishing! Available in 3 lengths: 3, 4 and 5m.

**HANDLE**

### CROCODILE 2 IN 1 HANDLE

Well designed landing net handle that can be used at full length for all classic silver fish situations. Simply take off a section and you have a stiffer, stronger net for bagging on commercial fisheries. The sections reinforced with rings at the joints.

**HANDLE**

### CROCO COMPET. LANDING HANDLE

The best quality net handle in our range. Currently used by Team Sensas 28 anglers, this handle is easy to use and very light and stiff! Available in 2 lengths: 4.20 and 5.70m.

**HANDLE**

### NANOFLEX SUP. COMPET. SLIM HANDLE

A handle for serious match anglers. Slender and quick in and out of the water. This is the ideal handle for catching medium to large fish quickly. Great for mixed fisheries.

## TELE MATCH COMPETITION ROD

Light slender rod that will handle wagglers between 20 and 25g. The great advantage of telescopic rods is that they don't take up much space and can be set up quickly on the bankside. Tele-match rods have the edge over bolognese rods when it comes to casting lighter floats further out. Ideal for canals, lakes and rivers.

ROD

## TELE MATCH CARP ROD

Powerful waggler rod that will handle floats of between 25 and 30g. An ideal rod for slider fishing for big bream on rivers or waggler fishing for carp at mid distance.

ROD

## CARP'X TELESCOPIC ROD

Wagglers rods with spiral weave reinforced blanks giving extra power and solidity to each rod. Versatile rods can be used either for long distance waggler work with big wagglers or for targeting big fish like carp. Medium rods will handle floats up to 30g. Strong rods up to 60g!

ROD

## NANOFLEX PLOERMEL MEDIUM ROD

Great fast action telescopic waggler rods that can cast a long way accurately. Being telescopic they can easily be brought to the bank already set up and ready to fish!

ROD

## NANOFLEX PLOERMEL SLIDER ROD

As its name suggests this is a slider waggler rod designed for demanding match anglers. Great balance and a good fast action so vital for piking up line on the strike.

ROD

# BIG FISH WAGGLER

## CRAZY CLASSIC WAGGLER ROD

Entry level match rod designed for targeting carp on commercial venues. Ideal for anyone starting waggler fishing for carp or match anglers who want an occasional big fish rod without spending too much money.

**ROD**

## CRAZY CARP WAGGLER ROD

Rod designed for match anglers who regularly fish carp oriented venues. The blank has the power to soak up the initial runs from big carp. Try it for yourself and you will be surprised at just how well balanced this rod is.

**ROD**

## CRAZY SILVER FISH WAGGLER ROD

Value for money rod that has been specifically developed for fishing commercial fisheries. The rod has the perfect action to cope with fish of any size from small silvers to bigger carp.

**ROD**

## BARBEL MATCH ROD

3 piece rod fitted with twin legged rings throughout. Great action for targeting big fish at short or long range. The Barbel Match is a versatile rod that can be used for method fishing on lakes as well as river barbeling.

# MATCH REELS

A selection of Pezon & Michel reels to compliment your waggler, feeder or bolo rods. If you are on the lookout for a match reel then look no further!

## SPECIAL TEAM SENSAS FV REEL

Hyper compact and extremely light, this reel has a wide rotor and spool to reduce as far possible the number of turns of line on the spool. This results in better line lay and improved casting performance that you will appreciate once you start fishing. The mechanism is fluid and smooth and the high gear ratio helps make fishing efficient and precise. The micrometric drag system is very accurate and progressive so you can set it exactly to suit whatever hooklengths you are using. Supplied with a spare aluminium spool and one touch folding handle.

## LUXOR FS FV 3500 MATCH REEL

This is our very latest reel for the demanding waggler angler. Top quality engineering mounted on stainless ball bearings coupled with a compact and elegant modern design. Precise and smooth gearing coupled with a wide aluminium spool guarantees great cross spiral line-lay. This is vital for smooth long distance casting and helps your mono last longer! The reel has a super smooth action that you will feel even when winching in hard fighting fish. This is a reel to delight the most demanding waggler anglers. Supplied with a double handle for optimum comfort. Fast high ratio retrieve, titanium anti twist line guide and a solid pick up arm. Spare aluminium spool supplied with a spare one touch handle that folds in at the push of a button.

Angel RODRIGUEZ

# 3000 SUPER BLACK

These salty mixes will give you an edge when conditions are hard and they work all year round, not just in winter! Try them out even in high summer when the waters are warm and you will be surprised at the results! All of our field testing with these mixes has proved very promising indeed!

 Jeremie ANDRÉ

## 3000 DARK AND SALTY BREAM

Fine groundbait that is slightly binding. Mixed for skimmers and bream. Works best on those days when the fishing is hard and the fish are not feeding confidently.

## 3000 DARK AND SALTY FEEDER

Fast acting fine feeder groundbait. Medium sticky, this groundbait is versatile and can be used on rivers, lakes or canals.

## 3000 DARK AND SALTY LAKE

Versatile groundbait which works on all species. Fine particle size which works rapidly and will quickly pull fish into your swim.

## 3000 DARK AND SALTY ROACH

A fine textured groundbait which targets roach of all sizes. Works best when the water is either cold or very warm.

## 3000 DARK AND SALTY RIVER

Fairly sticky groundbait with particles ground to a medium size. Suitable for mid to fast paced rivers. Will attract roach of all sizes and skimmers and bigger bream,. Ideal too for big navigable waterways.

## SENSAS TIPS

As waters right across Europe become cleaner and clearer anglers are being forced to rethink groundbait strategies. With increased water clarity fish are warier and harder to catch than in years gone by. This is why our European champions have spent month's field testing this new range of BLACK groundbaits. These groundbaits beat existing black products on the market. First the black dyes go right through all the ingredients and they stay black for hours once in the water. Second the colourants used leave NO STAINING on your hands during mixing or feeding! These groundbaits are fast becoming «must-have» baits.

### 3000 SUPER BLACK BREM

Fine particle size, slightly sticky groundbait perfect for targeting bream and skimmers on tough venues especially where pike are a nuisance.

### 3000 SUPER BLACK CARP

Perfect for carp waters where the fish are under a lot of pressure.

### 3000 SUPER BLACK FEEDER

Fine particle size and medium binding properties make this the perfect mix for using in cage feeders even in slightly deeper water.

### 3000 SUPER BLACK CANAL

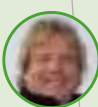

Fine particles and low binding characteristics make this the perfect groundbait for clear canals and roach in particular

### 3000 SUPER BLACK LAKE

All year round mix that can be used either with leam or other BLACK series groundbaits.

### 3000 SUPER BLACK ROACH

Fine particle size and medium binding properties make this the perfect mix for using in cage feeders even in slightly deeper water.

## 3000 EXPLOSIVE - 3000 FINE GRAIN

Fast acting mixes designed to pull fish quickly into your swim. Active ingredients make sure the groundbaits disperse quickly to get fish feeding sooner! You'll get some explosive results with these explosive groundbaits!

**Top mix from...**  
**Jean-François Chausse**  
*World Champion*

**Bream off the bottom**  
 1 kg Sensas 3000 Explosive Bream  
 1 kg Sensas 3000 Bream Clouding yellow  
 500 g terre de surface yellow

### EXPLOSIVE BREAM

A fine, yellow groundbait that 'works' immediately on contact with the water. Like all the other groundbaits in the 'Explosive' range, you can add Terre de Somme and damp yellow leam to create more of a cloud to hold skimmers and bream.

### EXPLOSIVE GARDONS

A fine-textured groundbait that turns an attractive shade of brown when mixed. It has a subtle smell and 'works' rapidly in the water. It's a brilliant groundbait for roach and very versatile when mixed with Terre de Somme in varying quantities.

### 3000 EXPLOSIVE RIVER BRASEM

Fantastic groundbait that pulls in quality fish quickly. Works best in summer when big fish are most active and the water has fully warmed up.

Sometimes when using a classic groundbait it can be difficult to pull in fish which are holding off the baited area. The fast action of the 3000 explosive lake will disperse through the water quickly and pick up any flow or drift to draw fish quicker to your feed.

## 3000 EXPLOSIVE - 3000 FINE TEXTURE

### 3000 ETANG (LAKE) FINE TEXTURE

This versatile mix is perfect for all stillwater situations where the fish are not really having it. Highly adaptable - this mix is perfect for all situations where you are worried about overfeeding fish.

### 3000 GROS GARDONS FINE TEXTURE

A fine-textured version of the famous Gros Gardons that is slightly less sticky. Very good for big roach on canals affected by the opening and closing of locks.

### 3000 CANAL NOIRE (BLACK) FINE TEXTURE

This is the perfect winter mix combining a fine texture with a sombre black colour. A must for all difficult fishing conditions where care is needed in feeding your swim. Also suitable for lakes and slow moving rivers.

This range is designed with the matchman in mind. With their fine texture these groundbaits are perfect for catching wary or pressured fish. Very popular for difficult fishing in canals and other waters that are not affected by strong currents.

### 3000 GARDONS (ROACH) FINE TEXTURE

A fine-textured version of the successful 3000 Roach, this groundbait is ideal for delicate roach fishing.

## 3000 ANDANG

These classic groundbaits have stood the test of time and been developed to work on diverse venues and different fishing styles: canal, lake, river, waggler or bolo fishing etc. The «Classic Range» is the result of close collaboration between our technicians and the experience of top match anglers throughout Europe. These are pedigree groundbaits with a proven fish catching track record!

### 3000 ETANG BROWN LAKE

A very good bait for lake fishing. Very active - good for skimmers and roach and any medium sized fish.

### 3000 ETANG BLACK LAKE

A very fine dark groundbait designed for difficult fishing in clear water. Works best when used with other dark groundbaits like Noire etc.

### 3000 ETANG NATURAL (LAKE)

Versatile mix suitable for all types of still water fishing. It can slow the action of a surface groundbait, or give a heavier groundbait more action.

### 3000 ETANG YELLOW LAKE

Highly visible yellow groundbait - ideal for top up feeding for summer skimmers and bream.

### 3000 ETANG RED LAKE

Great early season groundbait for coloured waters

## 3000 SUPER ANDANG

### 3000 SUPER LAKE BREEM

This cream-coloured groundbait works quickly to create a light-coloured carpet on the bottom which will attract bream from a good distance. Ideal when regular balls of groundbait are required.

### 3000 SUPER LAKE ROACH

A fine, non-sticky groundbait which is not quite as rich as the standard Lake groundbait. An excellent roach groundbait for calm water conditions.

## FOR RIVER FISHING

**Renaud CAUDIN**

### Team Sensas 28 Tip

To get all your groundbait balls the same size for initial and top up feeding use your bait control boxes in 1/4 and 1/8 of a litre size to get the same dose every time!

### 3000 SUPER RIVER BREAM

A sticky, light-coloured groundbait containing fluorescent particles much loved by bream. Perfect for regular feeding on rivers.

### 3000 SUPER RIVER CARP

A sticky and coarse groundbait which is highly nutritional and has been specially developed for big bream and carp in rivers.

### 3000 SUPER RIVER ROACH

A dark brown groundbait which is fairly sticky and dense in texture. Specially developed for big roach in rivers.

### 3000 RIVIERE (RIVER)

Containing large particles and lots of binder. It is orange in colour and suitable for medium to strong flows. Good for big bottom feeding fish.

### 3000 BARBEL

Heavy binding groundbait ideal for carrying particle baits in rivers with strong currents loved by barbel.

### 3000 BARBEL WITH CHEESE

## 3000 ATTRACTIVE GROS GARDONS

Made with coarser particles than the «attractive roach» to help select bigger roach. Light brown in colour.

## 3000 ATTRACTIVE FEEDER

There are a lot of seed particles in this groundbait which ensures it works quickly once in the water - perfect for fishing with cage feeders.

## 3000 ATTRACTIVE LAKE

A fast acting all-round lake groundbait - perfect for using on its own or as a base mix with other groundbaits.

## 3000 ATTRACTIVE CARP

Carp love seed baits so they'll love this groundbait! This mix will hold carp in your swim for hours!

## 3000 ATTRACTIVE ROACH

This dark brown groundbait is a real roach magnet! Boosted in seed particles this groundbait is very active. The extra seed attraction will hold roach longer in your swim!

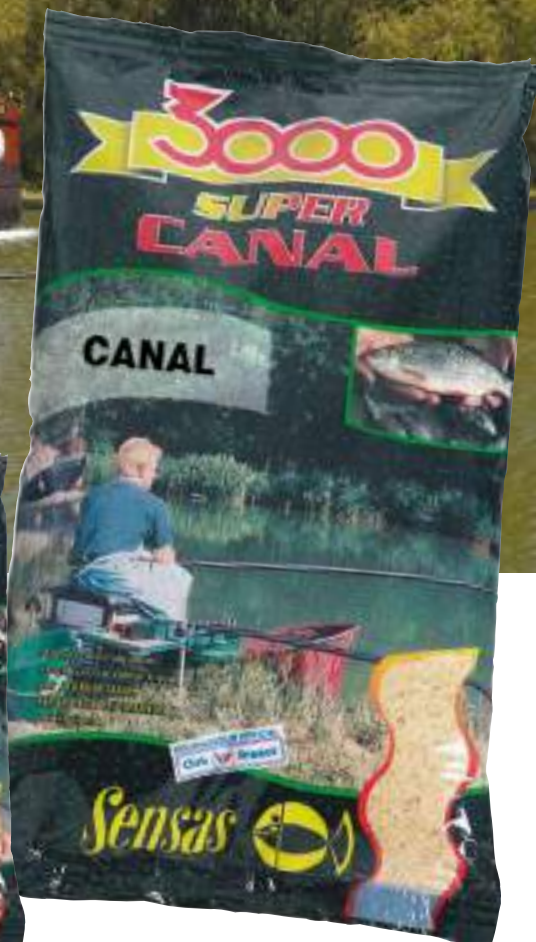

## 3000 ATTRACTIVE BREAM

Light beige coloured bream groundbait. Enhanced with particles to appeal to larger bream. This light coloured groundbait is a positive mix and one for using when big nets of bream are on the cards.

### Big river fish

2 kg Sensas gros gardons  
1 kg Sensas carp fine  
1 kg Sensas 3000 River  
1 packet Vanille  
6 kg terre de Riviere

### 3000 GIALLA

A yellow, coarse textured groundbait for big fish. Very popular in Italy for carp and carassio.

### 3000 BOGA

A fine-textured, clouding groundbait for slow rivers. Very popular in south-west France, Spain and Portugal for targeting boga and barbel.

### 3000 CARASSINS

A coarse grained groundbait that takes on a lovely yellow colour once wetted which crucians cannot resist. This high food value mix can also be used to target other big fish like tench, bream and carp.

### 3000 CARP

A light coloured protein-rich groundbait an ideal particle carrier. It binds well and is designed for carp and big fish.

### 3000 CARP YELLOW

A very protein-rich groundbait for wary carp - also effective in coloured waters.

### 3000 CARP RED

Protein rich red groundbait perfect for coloured waters.

### 3000 CARP BLACK

A dark version of the very successful classic 3000 carp. Ideal for winter fishing when the cold makes fish more wary.

### 3000 CARP FINE PARTICLES

It's fine texture makes this mix very versatile, suitable for all large bottom feeding fish.

### 3000 CARP LARGE PARTICLES

There are some extra large particles in this protein-rich and binding groundbait. Ideal for baiting up for big carp.

### 3000 CARP FISHMEAL

The addition of fishmeal to this already successful carp groundbait has made it even more powerful in attracting carp.

## BLEAK AND SURFACE

### 3000 ABLETTES (BLEAK)

This groundbait forms a light and lingering cloud in the water to hold bleak in your swim. Best when overwettered.

### 3000 ABLETTES (ORANGE BLEAK)

A light soft textured groundbait perfectly suited for bleak fishing. It's bright orange colour makes it highly effective whatever the season.

### 3000 SURFACE

A very light groundbait with little binder which is light in colour. Perfect for small fish feeding at the surface or in midwater. Expands on mixing.

## SMALL FRY AND GUDGEON

Fine textured groundbait with an aniseed flavouring, and a little binder. Their clouding effect makes them particularly attractive for small fish (small roach, gudgeon & bleak). A perfect small fish match bait.

### 3000 FRITURE (SMALL FISH BROWN)

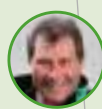

The most versatile mix.

### 3000 FRITURE (SMALL FISH YELLOW)

Very effective in summer.

## Sensas product info

### Pellet Breakdown Speeds

We try to give you as much information as possible about our products to better understand how they work. We have calculated the breakdown speeds of our pellets by testing them in water at 19° - typical summer lake temperature. Knowing how fast pellets breakdown helps you understand how to feed and choose mixtures of pellets that work over different time scales. We have given each of our pellets a score of 1 to 5 to show how long they take to completely break down.

Here is how the scale works:

- 1:** Breaks down in less than 30 minutes
- 2:** Breaks down between 30 minutes and 1hr 30
- 3:** Breaks down between 1hr 30 and 2hr 30
- 4:** Breaks down between 2hr 30 and 3hrs

# 3000 SPECIFIC

## 3000 CLUB

### 3000 CLUB BREAM

This groundbait goes a deep yellow when wet - ideal to pick out bream from other silver fish. This mix will hold together well without being too sticky. The 3000 bream can be used on its own or mixed with another club range groundbait as conditions dictate.

### 3000 CLUB LAKE

A lot of hard work has gone into getting this groundbait exactly right. The result is a pale, fine grained mix which will hold together whilst you feed it yet break up rapidly once on the bottom. A lovely lake blend which is both easy to work with and extremely attractive to fish.

### 3000 CLUB ROACH

This is a relatively fine groundbait which will break up quickly one in the water. Takes on a lovely rich brown colour once wetted.

This new range of groundbaits have been developed to meet the needs of the modern match angler. As angling pressure increases and fish wise up to standard baits, thinking anglers need an edge to stay in front. The 3000 club range does just that. Each mix is perfectly suited to a species or a type of venue or technique. So stay in front and team up with the new 3000 club range!

### 3000 CLUB CARP & BIG FISH

As you would expect this is a richer, heavier mix with a distinct beige cream colour once wet. Big fish beware- this groundbait has your name on it!

### 3000 CLUB FEEDER

This feeder mix is designed to break up rapidly once in the water. Light brown in colour this mix is particularly suitable for cage feeder work.

Perfect for modern clear water conditions! 4 varieties in 1 and 2,5 kilo bags have been developed by our team all at attractive «club» prices!

### 3000 CLUB BREAM BLACK

Medium grain size and binding characteristics. Perfect for bream and other big fish especially in very clear water conditions.

### 3000 CLUB LAKE BLACK

Black version which has all the same attributes as our classic Lake groundbait.

### 3000 CLUB CARP & BIG FISH BLACK

The right balance of particle size and stickiness to catch the most wary of big fish on clear or high pressured waters.

### 3000 CLUB ROACH BLACK

Fine texture and medium stickiness perfect for targeting roach in clearer waters.

2 kg terre de Somme

### 3000 CLUB CARASSINS

Light coloured mix appreciated by crucians and other big fish.

### 3000 CLUB BIG ROACH

Roach mix with slightly larger particles to select better quality fish. Goes an attractive deep brown once wetted.

### 3000 CLUB BLEAK

Very light, fast-expanding groundbait. It forms a light cloud to attract and hold bleak.

### 3000 CLUB NASE

The yellow colour of this aniseed flavoured groundbait will attract everything swimming in your swim! Medium-sized particles and strong binding properties.

### 3000 CLUB BARBEL

Very rich and heavy binding ground-bait specially designed to remain effective even with strong currents. Perfect to attract and hold barbel in the swim and let them find your bait

### 3000 CLUB RIVER

This mix binds well and has a medium texture. Versatile groundbait suitable for the majority of river venues.

### 3000 CLUB BREAM

Similar in composition to the 3000 Club Bream, this dark brown groundbait is perfect where you want a darker mix to blend in with the colour of the bottom.

## 3000 MATCH

The 3000 match range of groundbaits are designed to meet the exacting requirements of modern competition anglers. They have been extensively field tested by some of Europe's top anglers and a lot of their knowledge and expertise has gone into the development of each mix. The 3000 range uses only top quality ingredients and each groundbait has been made to win you more matches!

### MATCH ROACH

When mixed, this groundbait takes on a light brown colour making it useful for all types of roach fishing. It's not too sticky and adapts well to lakes, canals and slow rivers.

### MATCH BIG ROACH 1KG

This is a newer version of the 3000 Match roach which will help you select a better stamp of roach.

### MATCH LAKE

This groundbait has a medium texture and binding power. Extremely versatile for lake fishing where many species and different sizes of fish can be encountered.

### MATCH FEEDER BIG FISH

A superb, medium-textured groundbait. Best suited for catching big fish on the feeder. Excellent for distance and river work.

### MATCH BREAM

This groundbait is a lovely yellow colour and perfectly adapted for bream fishing with a pronounced citrus-fruit smell. Medium texture and fantastic in summer.

### MATCH CARP AND BIG FISH

A superb, medium-textured groundbait. Best suited for catching big fish on the feeder. Excellent for distance and river work.

## 3000 CONCOURS

### 3000 COMPETITION SURFACE

This surface mix starts working as soon as it hits the water. Creates a long lasting cloud which will hang tantalisingly in the water pulling in bleak, roach and other small fish.

### 3000 COMPETITION LAKE

This highly attractive lake groundbait will work quickly to draw fish into your swim. A versatile mix which will appeal to roach, skimmers and bigger fish.

### 3000 COMPETITION ROACH

This is an ideal blend for any venue where you want to pick out quality roach.

### 3000 COMPETITION CARP

Designed to select bigger fish, the 3000 carp match groundbait will help you put more quality fish in your net.

# LIQUID ADDITIVES

## ATTRACTIX - SECRETIX - BOOSTERS

Liquid additives are designed for adding to mixing water before wetting your groundbait so every particle in the groundbait soaks in the flavour. Some liquid additives like «Aromix» will also change the action of a mix as the sugars act as a binder. This makes a heavier, stickier mix much used on canals to prevent particles being swept away by water movement from locks or lake undertow.

Concentrated liquid aromas for matchfishing. Secret recipes from the very best anglers.

Hyper concentrated liquid additives. A must have ingredient in your mixes. Use one soup spoon for a kilo of groundbait!

### SECRETIX VANILLA

	ml	REF
SECRETIX VANILLA 500ML	500	15010

Particularly good for roach but other species like it as well.

### SECRETIX CARAMEL

	ml	REF

# CLASSIC INGREDIENTS

Use the table below to help you personalise your groundbaits. You will find additives to target certain species, select bigger fish or change the action and binding properties of a mix. These ingredients can give your groundbaits a real winning edge!

## Sensas product info

### PRODUCT INFORMATION GROUND GRILLED INGREDIENTS

These ingredients are genuinely innovative and will add masses of attraction to your groundbait. Grilling grains gives off a very powerful odour and reduces the binding properties of most ingredients which helps a groundbait work quicker once in water. It is best to use grilled particles when there are not too many nuisance small fish present. These precooked ingredients are easily taken in and digested by fish and all species like them. Use them in the proportions of between 10-20 % in your mix.

## BOTTOM LEAM – SURFACE LEAM · TERRE DE SOMME

Leams allow you to modify the mechanics of a groundbait without altering its feed content. Some leams are light and help disperse a mix other leams and clays are binders and make mixes stickier. Some leams will help a groundbait to cloud on the bottom whilst others are used simply to add weight. Leams are a vital part of the modern angler's armoury!

### DAMP LEAM YELLOW

	Kg	REF
DAMP LEAM YELLOW 2KG	2	09862

This damp leam is used mainly for skimmers and bream. It creates a long lasting yellow cloud in the water which helps draw fish into your swim.

### BLACK DAMP LEAM

	Kg	REF
BLACK DAMP LEAM 2KG	2	09892

Black version of the base double leam mix. Perfect for clear waters and using with other groundbaits in our BLACK range.

### DARK LEAM

	Kg	REF
DARK LEAM 2KG	2	35721

Dark coloured leam perfect for targeting bigger fish on difficult days. Can be used on its own or added to dark groundbaits.

### RIVER LEAM

	Kg	REF
RIVER LEAM (TERRE DE RIVIER) 3KG	3	02418

A brown binding leam which is ideal for slowing down the action of your river groundbaits. Equally useful in deep lakes and stillwaters with tow.

### NORTHERN LEAM

	Kg	REF
NORTHERN LEAM 2KG	2KG	03912

A leam that creates a longer lasting cloud in the water than classic terre de Somme.

### DAMP LEAM BRASEM FLAVOUR

	Kg	REF
DAMP LEAM BRASEM FLAVOUR 2KG	2	02414

Use this with bream groundbaits, either in the mix or as part of a «tapis de terre».

### DAMP LEAM VANILLA FLAVOUR

	Kg	REF
DAMP LEAM VANILLA FLAVOUR 2KG	2	02413

Use this with roach groundbaits, either in the mix or as part of a «tapis de terre».

### STANDARD DAMP LEAM

	Kg	REF
STANDARD DAMP LEAM 2KG	2	02412
STANDARD DAMP LEAM 6KG	6	02416
STANDARD DAMP LEAM 20KG	20	02399

Fine soil that is not too sticky. Slightly damp light brown coloured soil that is best suited to lakes, canals and slow rivers. Widely used in Northern France to create a soil cloud (tapis de terre) into which larger groundbait balls are fed at the start of a match.

### DOUBLE LEAM

	Kg	REF
STANDARD 2KG	2	35731
BLACK 2KG	2	35741

### STICKY TERRE DE RIVIERE

	Kg	REF
STICKY TERRE DE RIVIERE 3KG	3KG	03915

Binds more than classic Terre de Riviere to let you get more live bait straight down to the bottom.

### LAKE LEAM

	Kg	REF
LAKE LEAM 2KG	2	26492

Only slightly binding, this brown leam is perfect for extending the activity of your lake groundbait.

### OCHRE LEAM

	Kg	REF
OCHRE LEAM TERRE DE RIVIERE 3KG	3	02493

Ochre leam is heavy and binds well. It is perfect for fast flowing waters where you want a groundbait that will stay put to hold big bream and in situations where you need to feed hard compact top up balls that make a splash and go straight down.

### SURFACE LEAM YELLOW

	Kg	REF
SURFACE LEAM YELLOW 500G	0.5	26571

Very fine clouding leam that is used to add a little weight to surface groundbaits when you need to feed by hand at distance or in a wind. Can also be used with groundbait to create mixes that break up at mid depth! Available in 3 colours.

### SURFACE LEAM RED

	Kg	REF
SURFACE LEAM RED 500G	0.5	26581

Very fine clouding leam that is used to add a little weight to surface groundbaits when you need to feed by hand at distance or in a wind. Can also be used with groundbait to create mixes that break up at mid depth! Available in 3 colours.

### SURFACE LEAM BROWN

	Kg	REF
SURFACE LEAM BROWN 500G	0.5	26591

Very fine clouding leam that is used to add a little weight to surface groundbaits when you need to feed by hand at distance or in a wind. Can also be used with groundbait to create mixes that break up at mid depth! Available in 3 colours.

### BOTTOM LEAM

	Kg	REF
YELLOW 3KG	3	31433
BROWN 3KG	3	31443
BLACK 3KG	3	31453

This is a dense heavy leam that lets you add weight to a mix to get it down quickly in stronger flows. Can also be used for river top up feeding where the fish respond well to noise. Available in a range of colours.

## CLAYS - BINDERS - LITOU - DIVERSE

Jean-François CHAUSSE

### NATURAL DRY LEAM

	Kg	REF
NATURAL DRY LEAM 2KG	2	35471

Perfect for mixing with your DRY groundbait ingredients before wetting. Will add weight to a mix and create a cloud in the water which fish find attractive. Can be used in mixes fished off the bottom or hard on the deck.

### YELLOW LEAM

## WINNING TIPS

WASH YOUR SWETCORN ! Anglers like mixing different coloured sweetcorns through a groundbait. This gives plenty of scope to change baits and try cocktails of colours. However the colours in sweetcorns tend to leach out when mixed together. To prevent this from happening, riddle the grains under water with a fine-mesh riddle. Once washed of their juice the grains will hold their colour better and stay distinctively different all day long.

Oils and essences ideal for flavouring your groundbait, raw and cooked particles and dipping hook baits...

# CLASSIC 3000 UK RANGE

## LAKE 3000 - MAGIC 3000 - RIVER 3000 - FEEDER 3000 - ALL ROUND 3000

### 3000 LAKE

Versatile and our most popular mix. Full of attractors that work constantly in your swim to keep all species interested. The base to many of Team England's successful mixes.

### 3000 RED LAKE

Great during the summer months. Particularly good for Skimmers.

### 3000 MAGIC RED

A popular summer mix, Magic Red is ideal for coloured waters. Its sweetness makes it a perfect Bream and Skimmer mix, both for feeder fishing or balling.

### 3000 EXPLOSIVE FEEDER

One of our finest, active, high in feed, full of crushed hemp and other fish-catching ingredients.

### 3000 TON-UP

A bagging mix with lots of 100lb Bream catches in both Ireland and the UK to its credit. This versatile groundbait can be mixed into a heavy texture to feed by catapult and by hand or a little dryer, perfect for the feeder. With its orange colour, Brasmel flavouring and added coloured particles it will attract Bream and big fish from a distance and hold them in your swim for hours.

### 3000 BLACK LAKE

The black equivalent. Perfect for clear waters and difficult conditions.

### 3000 MAGIC NATUREL

An old favourite. This sweet mix is great for Skimmers and Bream.

### 3000 MATCH BLEND

A relatively dark low-feed groundbait that breaks down quickly. perfect for harder conditions on smaller canals and lakes.

### 3000 FEEDER GROUNDBAIT

This special mix is designed to disperse quickly from the feeder, giving a cloud of fish-attracting particles.

### 3000 MAGIC BLACK

A winter mix, fine, black and full of sweet active ingredients.

### 3000 FORMULA SUPREME

With a light, fluffy and open texture this groundbait is ideal for fishing «on the drop» when fish are feeding off the bottom. Having very little feed content it's a great small fish bait when the need is not to overfeed. Adding a few handfuls of Match Blend will increase the food content and stiffen the mix for deeper waters.

### 3000 RIVER

Another popular mix. Can be mixed heavy to go straight to the bottom of fast rivers. Full of feed, with medium sized particles.

### 3000 RIVER BLACK

The same consistency as River Natural, in clearer water, Black River gives fish confidence to feed.

### 3000 FINE LAKE

The same successful formula as Natural Lake but ground more finely. Ideal when you need to attract the fish but do not want to overfeed them.

# BIG BAG GROUNDBAITS

Generation of highly specific groundbaits developed by our English fishery and carpodrome consultants. Based on ground pellets and top quality stimulants and additives these mixes will prove irresistible to carp and other big fish. Can be mixed up sloppy if you want, these groundbaits work quickly in the water to create a rapid and long lasting attraction. English expertise now available to all to get more from fisheries and carpodromes right across Europe.

## SENSAS BIG BAG STIMUL 8

Fine textured groundbait composed of ground pellets, fishmeals, Betaine and other stimulants. Green colour much loved by carp and other big fish. Can also be used as a paste.

## SENSAS BIG BAG HALIBUT & HEMP MIX

Fine grained groundbait blended from first class ingredients - ground halibut pellets, fishmeal, ground hemp and appetite boosters. Perfect for targeting big carp, tench and bream. Can also be mixed as a paste for fishing on the hook.

## BIG BAG HEMP & TIGER MIX

This groundbait is laced with seed particles and oils. Sure to interest feeder and method anglers as well as pole specialists. Rich in hemp and tiger nuts. The combination is unusual and very effective!

## SENSAS BIG BAG WHITE EXPLOSION

Fine groundbait based on top quality ground pellet, additives and appetite stimulants. The white colour is very provocative and attracts the interest of big fish quickly. Can also be mixed as a paste for using on the hook.

## SENSAS BIG BAG GROUND PELLET METHOD

Fine textured mix containing top quality ground pellets, cereals and appetite stimulants. Discrete mid brown colour for wary carp and F1's. This versatile groundbait can be balled in, cupped in, fished as a method mix or mixed to a paste.

## SENSAS BIG BAG CARP METHOD FEEDER

Fine textured groundbait composed from top quality ground pellets, stimulants and attractants. Mid brown colour to appeal to big carp, tench and bream. Can be used as a paste, with a method feeder or in a soluble stick.

## BIG BAG KILLER KRILL

Great groundbait containing a high percentage of krill. Particularly effective for big fish during the colder months.

## BIG BAG F1 CARP

Fantastic groundbait with a good percentage of ground pellets. An all year round mix that will work on F1's and other carp.

Jean Desqué

To keep some feed going in your swim whilst playing hard fighting carp opt for 8mm pellets that can be fed by hand. Keep your smaller 2 and 4mm pellets for catapulting once you've landed your fish!

# HOW TO CHOOSE THE RIGHT FLOAT ?

As you flick through the pages of this catalogue you will see a wide range of pole floats on offer. We have put together a few simple pointers to help you make the right choice -starting with a look at the different materials pole floats are made from.

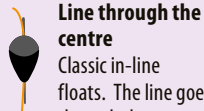

To help you select the right float we have included technical diagrams with certain patterns to better explain how they work.

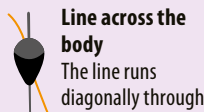

## Line through the side

Your nylon runs in line through the side of the float body. Perfect for controlling a float in the flow and much stronger than conventional float eyes.

## Line through the centre

Classic in-line floats. The line goes through the centre of the body along with the stem.

## Line across the body

The line runs diagonally through the float body. Great for Bolo fishing when you need to hold back in a flow.

## Reinforced eye

Certain floats designed for use on fisheries and carp venues feature a reinforced eye to stand up to the pressures of bagging on big fish.

## BRISTLES

### Wire bristles

These are the lightest and most delicate of bristles. Ideal for technical fishing and reading delicate bites. The diameters vary between 0.4 and 0.8mm (once painted). Generally these are used with light lines and small hooks. All of our wire stems are painted with a fluorescent anti-capillary paint.

### Fibre bristles.

These are generally made from clear fibreglass then coated with a fluorescent paint (red, yellow or orange). They are used in diameters between 0.5 and 1.5mm and are just as sensitive and more visible than equivalent wire bristles. They are tough and will not bend so they can be fished even with an eye on the bristle. These are the most versatile bristles combining strength, visibility and sensitivity

### Solid plastic bristles

These are the most widely used bristles. The plastic itself is dyed right through making these bristles very visible. Usually found between 0.6 and 4.5mm thick, covering a wide range of fishing situations. These bristles can be quickly coloured up black with the help of a marker pen but to get back the original colour you should use acetone to remove the marker pen.

### Hollow plastic bristles

These are widely used on waggler and bolo floats as well as pole floats. Generally used in sizes between 1 and 6mm. Being hollow they are easy to dot right down. They are also highly visible even in poor weather conditions as the light passes through the bristle. Hollow bristles can

hold up bigger baits and are ideal in strong winds or waves generated by big boats. All our hollow plastic bristles are coated in special anti-capillary paint.

### Cane bristles.

These bristles will take a big bait but still stay relatively sensitive. They generally have a diameter between 1.5 and 3mm. It is possible to shot these down to half bristle height or dot them right down in the water. Widely used in carpdomes.

### Balsa bristles.

Generally thick bristles used for big fish and big baits like paste, corn or worms. Widely used by trout anglers using big natural baits like lobworms and match anglers fishing up in the water.

## EYES

### Eye at the top of the body.

This is the most common eye position on a pole float. The great advantage is that you can hold back on the float without the body riding up in the water.

### Eye at the base of the bristle.

This helps you hold back on a float because the entire float body is below the eye. This gives you better float control and can let you fish with the pole tip out of the water when holding back which makes for cleaner striking.

### Line straight through the body.

Often used for big fish or for bagging up and building big weights. Line through the body float are very tough and can take some hammer. They are also completely waterproof thanks to the plastic tubing which lines the central hole on each float.

### Line through the side of the body.

This lets you have extremely tough but sensitive floats which can be used on rivers, lakes or canals.

### Eye through a balsa bristle.

These let you flick out floats without them tangling. Often used for up in the water fishing or on trout floats where the line can be wound back to create a wake in the water.

## STEMS

### Wire stems.

All of our wire stems are treated against corrosion. These are the most widely used stems as they keep floats very stable yet sensitive. Perfect for both keeping bait still for delicate, technical presentation. Wire stems are found on all types of floats from bleak floats to big flat floats. Diameters commonly used from 0.3 to 1,2mm.

### Glass stems.

These are strong stems used on floats for big fish. Fiber stems are also widely used on bolo floats. Diameters commonly used from 0.8 to 2mm.

### Carbon stems.

Lighter and stiffer than glass stems. Carbon stems are more sensitive than glass and are widely used for on the drop style fishing over loosefeed, for long lining or when you need to fish on deep venues. They are also widely used for reading lift bites.

## BODIES

There are literally hundreds of different float body types. To keep things simple, round bodied floats are generally used in flowing water. Pencil or pear shape floats are more versatile and slender carrot style boodies used for delicate fishing in calm water.

### Balsa.

This material is both solid and sensitive.

### Super competition foam

Aerospace grade top quality foam that won't take on water and has a totally consistent density. Floats designed for top flight match fishing!

## PAINT

All the floats in our range have a special anti-capillary paint. This has the advantage of not sticking to the water surface whilst making sure all our floats are completely waterproof.

## INDISPENSABLE - BALSA

This comprehensive range of floats covers all modern match fishing situations. The range comprises balsa bodied patterns with different bristle materials: glass bristles (A) thin plastic (B) plastic (C) and hollow bristles (D)

**Glass bristles (A)** – Ultra-sensitive and ideal for tougher conditions

**Thin plastic bristles (B)** – Ideal for when light conditions make seeing a glass bristle tricky.

**Plastic bristle (C)** – Sensitive but easy to see. Use for speed fishing 6 or 7 sections out or long pole situations when the fish are feeding positively.

**Hollow bristle (D)** – Great for targeting bigger fish and positive biting species like perch and catfish with bigger baits nailed to the bottom.

## INDISPENSABLE - BALSA

### Top flight competition floats !

New range of professional match floats available in the 4 body shapes most used by matchmen. The 4 floats in the range are available with 4 different bristle thicknesses. The smaller the number the thinner the bristle. The floats are numbered from 1 to 4.

#### No.1 : Wire bristle

The ultimate sensitive bristle for all technical fishing situations.

#### No. 2 : Fibre bristle

Great bristles that are very sensitive and easy to see as the light shines right through them!

#### No. 3 : Plastic bristle

Versatile bristles that can be used in most conditions.

#### No.4 : Hollow plastic bristle

The perfect bristle for targeting big fish with large hookbaits.

The revolution starts here! These hi-tech floats perform in ways no other floats have done before!

The float can be held back hard without drifting off line. With practise you can actually get the float to work its way upstream against the flow! You can guide the float round any snags in your swim. Perfect for rod and reel fishing, bolognese style fishing and the pole! Each float comes with two fine plastic bristles (one red and one yellow) and 3 shaped bristles (red, yellow and black)

16,00g	32	40576
20,00g	32	40578

The wire attachment system on these floats really helps gain extra metres on each cast over classic floats of equal weight. You can also fine tune the shooting by pushing the plastic stem in or out of the body or by adding or removing shot from inside the float body itself. Supplied with two bristles - one hollow for visibility and the other fine for tougher fishing conditions.

Keep your float on line longer! This model has been developed for trotting on rivers with rod and reel or on the long rod or bolognese. Stays on the right line longer than classic river floats - perfect for when the fish are a long way down your swim! You can hold back hard on these floats without pulling them towards the bank - a real plus when the fish want a bait slowly trundled down a swim! Comes with two fine bristles (red and yellow) and three shaped plastic antennas.

Controlled stretch pole elastic to let you set the tension you need for every situation. All the elastics are abrasion resistant and have built in UV protection-coupled with fluo colouring that will not fade with use! Magic Strong elastics - stretch factor 400%. Perfect for targeting better quality fish and venues where you have to catch a lot of fish quickly. Magid Soft elastics - stretch factor 600%. Where more finesse is needed - using fine lines and small hooks and in situations where you can't afford to lose a fish once you've hooked it! Comes in handy 7 metre spools!

## Produkt info Sensas

### SENSAS PRODUCT INFO STRETCH FACTORS

**FLUO 600 %** - Classic all round elastic.

**LATEX 700 %** - For bigger fish when conditions are hard and fine lines a must.

**HOLLOW 500 %** - Speed fishing for carp between 1 and 3 kilos.

**HOLLOW 800 %** - For bigger fish - from 3 - 15 kilos. Will just keep on stretching!

### STRETCH FACTORS

The stretch factor indicated for each elastic refers to the amount an elastic will stretch under pressure before bottoming out. So a stretch factor of 600% means an elastic will stretch 6 times its original length i.e.1 metre of slack elastic can be stretched to 6 metres before it will stretch no further. Knowing the stretch factors of different elastics allows you to adapt your elastic to the type of fishing you're doing. For bagging up on fish of all sizes - where speed is of the essence - you don't want an elastic with a lot of stretch in it! Same goes if you are fishing near snags. For harder conditions a stretchier elastic will limit pull outs and get more fish on the bank safely.

## STACKABLE BOXES AND WINDERS

New stackable winder boxes designed specifically to fit into Sensas seatbox trays or transported separately in a holdall. Once closed each box takes up half a tray and opened they fit a whole tray perfectly. It is also possible to stack the boxes in a winder tray which is particularly useful for smaller floats and saves a lot of space!

## SENSAS WINDERS – STONFO WINDERS

Sensas winders are fitted with a double hook attachment. They also feature pegs at each end to attach your line. On each winder we have clearly marked the real length of the winder and the length of line to wrap around is clearly marked. This lets you set up duplicate rigs quickly all the same length. Finally the width of each winder is clearly marked so as you fit the right float in each winder.

# FEELING LOOSE HOOKS

This range of hooks has been designed and recommended by Team Sensas match anglers. Made from special high carbon steel wire with exceptionally strong chemically sharpened points. The sizes and styles in this range cover all fishing situations from super fine bloodworm and pinkie hooks to maggot, caster and meat hooks. All feeling hooks are incredibly strong for their size!

## CLASSIC FISHING

On this page you will find the stronger types hooks. Perfect for targeting bigger fish.

A new hook with a new shape. A long shank allows baits like worms to be threaded easily, while the round bend keeps other baits like maggots in place without masking the point. For fishing on the deck. Pack of 15.

## DELICATE FISHING

These hooks have been developed for using in tougher fishing conditions for targeting both large and small fish. Perfect where optimum bait presentation is vital. They work especially well with bloodworm. Several of the models are equally at home for general small-fish-work, (small roach and bleak).

The last number on the hook packet donates the type of hook. 0 = Bronze, 1 = Nickel, 2 = Red, 3 = Blue, 4 = Gilt and 5 = Black.

### PACKET SENSAS 3630 HOOKS

## RIDDLES AND BAIT TRAYS

### EXPERT ADVICE

Follow these rules for perfect groundbait every time,

- 1- Use a large bowl even for small amounts of groundbait. A 40-Litre container is ideal.
- 2- Add water slowly while vigorously mixing the groundbait with your fingers.
- 3- Leave for several minutes to allow the groundbait particles to fully absorb the water.
- 4- Riddle the mix to remove the lumps and to create a soft and consistent mix.

## FIGHTING SECTIONS - STRONG NUMBERS - KITS

This page features extensions and kits developed specifically for commercials and carpodromes. Cutting edge technologies to help you bank even the hardest fighting fish!

### Sensas Tips - FIGHTING TOP

Fitted with a side hole for your elastic so you can shorten effectively your elastic as a big fish gets closer to the bank and ready for netting. Great for netting fish quickly without putting undue stress on all the sections of your pole!

Mickaël MONTENOT

### UNIVERSAL FIGHTING TOP CARP

These kits are reinforced at the bottom so they can be cut back if required. Budget fighting kits that are compatible with Series 3,4&5 poles.

### UNIVERSAL SPEC. FIGHTING TOP

Economical Fighting Kits with extra long reinforcement at the bottom of the No.3 section so they can be cut back to fit most poles.

### Info produit Sensas

All the kits in this range have large diameter holes to take elastics up to 4mm.

# CARPODROME COMPETITION SERIES 5

## HULK CARP

These poles really live up to their name! Built on our Series 5 mandrill these are top quality big fish poles and are super-strong and ultra-stiff. The design and build of our Hulk poles have the balance between stiffness, power and strength just right. Supplied with a Fighting Top Super Specimen Competition kit in the pole as standard. They also come with a parallel butt section identical to Series 4 poles that will take the pole to 13M and beyond making the poles easier to handle.

## Carpodrome

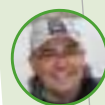

1 kg 3000 Commercial Fisheries Carp  
1 kg Sensas Crazy Bait Gold  
1 bottle Aromix Fishmeal

## Top tip from...

**Sean Ashby**

«On waters heavily fished by carp anglers add 30% of 3000 COMMERCIAL groundbait to your standard mix. The fish will be used to fishmeals and your results will definitely improve!»

**Sean Ashby**  
World Champion

## Carp and Crucians

1 kg 3000 Commercial Carp  
1 kg 3000 Commercial F1 Tench  
1/2 pot of Stimulatix (to dilute with your mixing water)

## 3000 COMMERCIAL FISHERIES SILVER FISH

Groundbait developed in England for targeting silver fish on commercial fisheries. Great groundbait for selecting big bream and roach!

## 3000 COMMERCIAL FISHERIES F1/TENCH

High performance groundbait that has proved itself fully during our field tests. Great for F1's, crucians and tench!

## 3000 COMMERCIAL KRILL

Excellent groundbait based on krill extracts and ground krill. Krill has a proven track record when it comes to attracting carp especially on carpodromes.

## 3000 COMMERCIAL MONSTER CRAB

A classic flavour for all commercial fisheries!

## 3000 COMMERCIAL F. METHOD FEEDER CARP

Superb method mix perfect for carpodromes or natural lakes.

## 3000 COMMERCIAL FISHERIES CARP

Great carpodrome groundbait that can also be used as a paste!

# GROUNDBAITS CARPODROME – 3000 COMMERCIAL

A range of groundbaits carefully developed for commercial fisheries. Everything about these groundbaits is right, from the feed value to particle size! These groundbaits are perfect for the job. All fans of fishing on commercial waters will be delighted with this new range of high performance groundbaits.

## CRAZY BAIT PELLET POWER HALIBUT PASTE

High oil hookbait paste widely used on English commercial fisheries. Great hook holding properties!

## CRAZY BAIT SHRIMP & FISHMEAL

Super flavoured Carp attractor easily mixes on its own, or as part of your favorite method mix, or paste - a truly all round Carp and big fish attractor.

## CRAZY BAIT BLACK WITH MUSSEL AND SQUID

A blend with proven Carp attractors, Mussel and Squid has incredible pulling power. The dark colour encourages even the cagiest of fish to feed with confidence.

## 3000 SPECIMEN SP FISHERY FISHMEAL

A fairly coarse groundbait boosted with fishmeal. Sure to be a big hit on English commercial waters.

## CRAZY BAIT MARINE

High performance Marine groundbait a dark high protein and energy bait most effective on heavily fished waters.

## MONSTER CARP

This large particled groundbait will help attract and hold big fish. This mix will break up very slowly which makes sure it stays on the bottom long enough for the big fish to find it.

## CRAZY BAIT SWEET STRAWBERRY

Very effective particularly in summer when fish favour a sweeter mix, used with sweetcorn or meat, very good for F1's, Carp, Bream and particularly Tench.

## CRAZY BAIT GOLD

Demand for even more concentrated and potent groundbait has led us to develop Crazy Bait Gold with its unique «double fish flavour» the richest and most powerful attractor yet produced.

## 3000 SPECIMEN SP FISHERY SWEET CORN

Carp love sweetcorn and they will love this sweet groundbait enriched with a strong sweetcorn flavour.

## CRAZY BAIT PELLET POWER CARP PASTE

This is Sean Ashby's favourite carp hooking paste! Great all year round with excellent hook holding properties.

## CRAZY BAIT GREEN GOLD

Based on the unique Gold formula, the green coloured mix is highly effective on heavy fished waters where Carp are super aware of regular baits.

# BIG BAG GROUNDBAITS

Generation of highly specific groundbaits developed by our English fishery and carpodrome consultants. Based on ground pellets and top quality stimulants and additives these mixes will prove irresistible to carp and other big fish. Can be mixed up sloppy if you want, these groundbaits work quickly in the water to create a rapid and long lasting attraction. English expertise now available to all to get more from fisheries and carpodromes right across Europe.

## SENSAS BIG BAG STIMUL 8

Fine textured groundbait composed of ground pellets, fishmeals, Betaine and other stimulants. Green colour much loved by carp and other big fish. Can also be used as a paste.

## SENSAS BIG BAG HALIBUT & HEMP MIX

Fine grained groundbait blended from first class ingredients - ground halibut pellets, fishmeal, ground hemp and appetite boosters. Perfect for targeting big carp, tench and bream. Can also be mixed as a paste for fishing on the hook.

## BIG BAG HEMP & TIGER MIX

This groundbait is laced with seed particles and oils. Sure to interest feeder and method anglers as well as pole specialists. Rich in hemp and tiger nuts. The combination is unusual and very effective!

## SENSAS BIG BAG CARP METHOD FEEDER

Fine textured groundbait composed from top quality ground pellets, stimulants and attractants. Mid brown colour to appeal to big carp, tench and bream. Can be used as a paste, with a method feeder or in a soluble stick.

## SENSAS BIG BAG GROUND PELLET METHOD

Fine textured mix containing top quality ground pellets, cereals and appetite stimulants. Discrete mid brown colour for wary carp and F1's. This versatile groundbait can be balled in, cupped in, fished as a method mix or mixed to a paste.

## SENSAS BIG BAG WHITE EXPLOSION

Fine groundbait based on top quality ground pellet, additives and appetite stimulants. The white colour is very provocative and attracts the interest of big fish quickly. Can also be mixed as a paste for using on the hook.

## BIG BAG KILLER KRILL

Great groundbait containing a high percentage of krill. Particularly effective for big fish during the colder months.

## BIG BAG F1 CARP

Fantastic groundbait with a good percentage of ground pellets. An all year round mix that will work on F1's and other carp.

## SENSAS PELLETS – CLUB PELLETS

### PELLET BREAKDOWN TIME

As always we aim to give you as much information as possible about our products. So we have calculated the breakdown times for all our pellets. We tested them in water at 19 degrees centigrade – an average summertime water temperature. Then we graded them on a scale from 1 to 5 based on their breakdown speed.

Here are the details of each category:

- Level 1:** Less than 30 minutes
- Level 2:** 30 minutes – 1 hour 30
- Level 3:** 1 hour 30 to 2hrs.30
- Level 4:** 2hrs 30 to 3hrs 30
- Level 5:** More than 3hrs 30

### CARP PELLETS

	Size (mm)	Sol. index	REF
PELLETS CARP			
2MM 750G	2	3	66012
4MM 750G	4	3	66022
6MM 750G	6	3	66032
8MM 750G	8	4	66042

These high quality fishmeal feed pellets give off a very strong attractant when dissolving in water. Attractive to all fish particularly Carp, they can be fed by hand or added to your groundbait.

### CARP EXPANDER PELLETS

	Size (mm)	Sol. index	REF
CARP EXPANDER PELLETS			
4MM 500G	4	4	66052
6MM 500G	6	4	66062

These floating pellets will turn into sinkers once soaked or pumped. They will sink slower than hard pellets making them an ideal feed for fish up in the water. They can also be used as a soft hooker pellet.

### LIGHT CARP PELLETS

	Size (mm)	Sol. index	REF
PELLETS LIGHT CARP			
4MM 750G	4	3	66132
6MM 750G	6	3	66182
8MM 750G	8	3	66202

Light coloured low feed pellets. A must-have bait when fish are not feeding actively

### MARINE HALIBUT PELLETS

	Size (mm)	Sol. index	REF
MARINE HALIBUT PELLETS			
2MM 750G	2	2	65952
4MM 750G	4	3	65962
6MM 750G	6	4	65972
8MM 750G	8	5	65982
10MM 750G	10	5	65992
14MM 750G	14	5	66002

These protein rich pellets have a high oil content. These pellets are deadly at sorting out the bigger fish be they carp, bream chub or barbel. Best suited to fishing in summer and autumn when the water has properly warmed up and fish are feeding actively.

### PRE DRILLED HALIBUT PELLETS

### Top tip from...

Jean Desqué

To keep some feed going in your swim whilst playing hard fighting carp opt for 8mm pellets that can be fed by hand. Keep your smaller 2 and 4mm pellets for catapulting once you've landed your fish!

# PRE PACKED CARPODROME MATCH FLOATS

To help you select the right float we have included technical diagrams with certain patterns to better explain how they work.

## Line through the side

Your nylon runs in line through the side of the float body. Perfect for controlling a float in the flow and much stronger than conventional float eyes.

## Line through the centre

Classic in-line floats. The line goes through the centre of the body along with the stem.

## Line across the body

The line runs diagonally through the float body. Great for Bolo fishing when you need to hold back in a flow.

## Reinforced eye

Certain floats designed for use on fisheries and carp venues feature a reinforced eye to stand up to the pressures of bagging on big fish.

# SUPER CARPODROME COMPETITION FOAM

New generation float range made from space age foam material that is completely watertight and consistent denseness. There are floats to suit whatever bait you choose - from natural maggots to expanders, pellet and paste floats. The plastic bristles are great for visibility and are glued directly onto the fibreglass stems that run right through the float body for extra strength.

## SET TIP CUPS (X2) 2.8-3.4MM

REF

01144

Set of 2 tip cups which are ideal for pellets, maggots and even paste.

## FISH COUNTER

	REF
Diam. 25 mm	01603

Fish counter that will fit on any 25mm seatbox leg. Can be rotated round 360° so you can locate the counter where it is easiest for you. A must have accessory for serious match anglers.

## 2 IN 1 KEEPNET ARM WITH CLAMP D 25MM

	REF
Diam. 25mm - 8/30cm	11062

Keepnet arm with clamp attachment.

## ADJUSTABLE KEEPNET ARM 25MM

	REF
	23629

Fixes onto the front of your seatbox legs. Arm with 5 holes about 20cm apart that will easily take 2 keepnets - so vital on carpodromes these days! 80cm long.

## N FISHERY ROTATING SEAT

	REF
	02807

This seat has the advantage of fitting all our modular tray seatboxes. Being able to rotate your chair is a real edge when feeding several lines on fisheries. The pole heel means you can always fish with your pole blocked between your legs no matter what way you are facing.

# CARPODROME NET HEAD

**N**

## **N CRAZY MEGA 12 LANDING NET D.60**

	REF
D. 60 cm / Mesh : 10 mm	02757

Very strong net with reinforced screw fitting. Perfect when teamed up with an Iron mega 12 handle.

## **N WIMBLEDON MEGA 12 D.55**

	REF
D. 55 cm / Mesh : 30 mm	02744

A net designed to cope with bagging big fish. Oversized screw fitting for extra strength. This is the perfect partner for our Iron Mega 12 net handle!

## **N WIMBLEDON MEGA 12 HEAD D.65**

	REF
D. 65 cm / Mesh : 30 mm	02752

Ultra-robust net head and large enough to handle the biggest carp and other specimen fish. finished with an oversized screw fitting for extra strength. The perfect head for our Iron Mega 12 net handle!

## **N WIMBLEDON CRAZY LANDING NET D.68**

	REF
D.68 / P.60 cm / Mesh : 30 mm	02711

Robust net that is perfect for carp and other big fish.

## **WIMBLEDON HEAD**

	REF
Diam. 55cm / Mesh: 20mm	10386
Diam. 65cm / Mesh: 20mm	13881

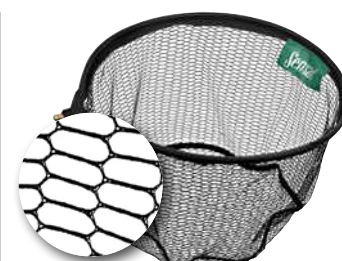

Top quality net made from knotted mesh. The mesh is very wide so hooks don't get caught in it. The frame is reinforced and the net dries in no time.

## **WIMBLEDON FLOATING HEAD 20MM DIAM 55CM**

	REF
Diam. 55cm / Mesh: 20mm	10392

Floating version that makes sliding the net under fish even easier. Knotted super-strong wide mesh that avoids hooks getting caught up. Quick drying, reinforced frame.

## **EASY DRY LUXE HEAD 0.8**

	REF
D. 55 / P. 30 cm / Mesh : 8 mm	02304

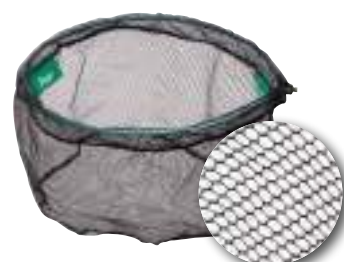

Top class net head with the same features as the other Easy Dry nets. Great finish and build quality. 8mm quick drying mesh and strong aluminium frame.

## **CRAZY RUBBER FLOATING L/NET**

	REF
D. 50 cm / Mesh : 3 mm	03758
D. 60 cm / Mesh : 6 mm	03759

Choice of two landing nets in either 3 or 6mm mesh. Perfect for carp and other large fish. The compact foam on the rim is very light and keeps the net afloat so it glides across the water for quick, easy netting.

## **RUBBER LANDING NET HEAD**

	REF
D. 55 cm / Mesh : 6 mm	21864
D. 60 cm / Mesh : 6 mm	21863

The mesh on these nets have been rubberised to prevent damaging large fish if they thrash around in the net. Strongly recommended for all situations when big fish are the target and fisheries in particular.

## N LUXOR FS FV REEL

Feeder fishing has certainly grown in popularity over the last decade. Today we have a dedicated feeder match circuit with feeder-only national and world championships. Working with top feeder anglers in Team Sensas, we have designed these LUXOR reels to meet the needs of the modern feeder match angler. Conical long cast spools with cross spiral line lay means farewell to line bedding and line twist. Slack line can get behind the spool in head winds so we have fitted special guards on the inside of the rotor arm to prevent line catching under the spool. Balanced double handles mean you can always find the right tension on your tip as well as instant contact with the handle on a bite and smooth balanced winding power. These compact reels have a smooth micrometric drag system that is vital given the range of hooklength diameters used today. Other features include a stainless steel main shaft, controlled reel ratios to eliminate line spin and a metal spring-held line clip. Supplied with a spare aluminium spool and one touch handle.

### PLUS POINTS +

## 3000 GROUNDBAITS

### 3000 FEEDER BROWN

### 3000 DARK AND SALTY FEEDER

### 3000 SUPER BLACK FEEDER

### 3000 ATTRACTIVE FEEDER

There are a lot of seed particles in this groundbait which ensures it works quickly once in the water - perfect for fishing with cage feeders.

### 3000 READY FEEDER

Very effective and easy to use, 1 kg of this ready-to-use groundbait should be enough for an unforgettable days feeder fishing.

### 3000 EXPLOSIVE FEEDER

One of our finest, active, high in feed, full of crushed hemp and other fish-catching ingredients.

### 3000 FEEDER GROUNDBAIT

This special mix is designed to disperse quickly from the feeder, giving a cloud of fish-attracting particles.

### 3000 CLUB BREAM BLACK

Medium grain size and binding characteristics. Perfect for bream and other big fish especially in very clear water conditions.

### 3000 CLUB FEEDER

This feeder mix is designed to break up rapidly once in the water. Light brown in colour this mix is particularly suitable for cage feeder work.

# 3000 FEEDER SPECIFIC

## FEEDER AND SUPER FEEDER

Fantastic range of feeder groundbaits developed by Jean Desque with input from Europe's finest feeder anglers. Designed to catch fish in clear water and difficult conditions. These new groundbaits use particularly fine particles to help pull fish into your swim without feeding them off.

### 3000 FEEDER SPECIAL LAKE

Attractive groundbait that will hold well in a feeder yet break up quickly once on the bottom.

### 3000 FEEDER ROACH

A dark groundbait that works quickly from the feeder. The feed particles attract roach from a good distance.

### 3000 FEEDER BREAM & BIG FISH

A mix that has enough binder to be used in a feeder but works quickly once it is on the bottom.

### 3000 SUPER FEEDER CARP

As its name suggests this is a carp and big fish mix for stillwater angling. Good for casting long distances!

### 3000 SUPER FEEDER LAKE

Without doubt the most versatile mix in the 3000 SUPER FEEDER range. Small canals, lakes and slow moving rivers are all suited to this groundbait.

### 3000 SUPER FEEDER RIVER

New groundbait perfect for targeting quality fish in medium to powerful rivers. Great mix for fishing at distance too!

### 3000 SUPER FEEDER BIG FISH

Selective groundbait best suited to targeting bigger fish at long range on big lakes or rivers.

# 3000 READY COMMERCIAL FISHERIES – SWEET FISHMEAL

## READY ORIGINAL METHOD MIX

## 3000 COMMERCIAL F. METHOD FEEDER CARP

Superb method mix perfect for carpodromes or natural lakes.

## SENSAS BIG BAG CARP METHOD FEEDER

Fine textured groundbait composed from top quality ground pellets, stimulants and attractants. Mid brown colour to appeal to big carp, tench and bream. Can be used as a paste, with a method feeder or in a soluble stick.

## SENSAS BIG BAG GROUND PELLET METHOD

Fine textured mix containing top quality ground pellets, cereals and appetite stimulants. Discrete mid brown colour for wary carp and F1's. This versatile groundbait can be balled in, cupped in, fished as a method mix or mixed to a paste.

## METHOD MIX FINE PARTICULE

This sticky, fine groundbait will break up slowly once in the water. Ideal for method feeder fishing.

## METHOD MIX STRAWBERRY RED

Red in colour and with a sweet strawberry flavouring, very effective in the summer months when the water is warmer.

## METHOD MIX HALIBUT PELLET POWDER

Rich groundbait perfect for big fish especially on sectors that are regularly carp fished. Great for big river bream and all bottom feeding big fish.

## METHOD MIX ORIGINAL

A blend of highly attractive ingredients with a fishmeal base. This «best selling» groundbait is the perfect method mix. With a firm sticky texture to hold onto the method feeders, cast at distance.

## METHOD MIX SPICY MEAT

Fantastic big fish groundbait. Contains plenty of spices and fishmeals.

## METHOD MIX MARINE PELLET

Fantastic big fish method groundbait that will attract bream, tench and carp.
