Extreme TX Bivvy

NEW

The best just got better! The Extreme TX Bivvy represents the next generation of our legendary TX Shelters, offering best in class quality and superb protection against the elements. The zip off front panel can be adjusted to three different door settings which allow for a change in wind direct without moving the entire bivvy. The large front and rear vents along with the PVC door and window panels also makes this bivvy very adaptable to the different weather conditions anglers face. Overwrap available.

- 20000mm HH Hydra-Tex® material
- High performance 2 rib structure
- Optimal foot-print / inner space ratio
- Peak system Zip-out front
- 2-way door construction with 3 door options (clear, green, mozzly)
- Long-life HD PVC groundsheet
- Large vents protected by anti-leak storm baffles
- High performance zips
- Taped seams
- Supplied in a heavy duty zip bag

Extreme TX Brolly System

NEW

The Extreme TX range offers best in class quality and superb protection against the elements. The brolly system represents a new generation of brollies with incredible internal space and a very short set-up time.

- 20000mm HH Hydra-Tex® material
- Unique condensation guard and External Rain Guard System
- Comes with 2 storm poles and a support bar, 4 storm screws and 2 x Velcro rod straps
- Features magnetic storm pole connectors
- Incredible head space
- Taped seams all over
- Zip-off front with 2-way door system
- Big mozzly vents with PVC window option
- High performance zips and heavy duty pegs
- Supplied in a heavy duty zip bag

RADAR / LUGGAGES / CARP CARE

Radar DS3

With the expert help of a team of international top carp anglers we have created bite indicators that offer unmatched reliability as well as numerous features that take carp fishing to a whole new level. The JRC Radar alarms are setting new standards in bite indicators that will be difficult to match. The DS3 alarms and receiver are available as a separate item, as well as in a practical 3 + 1 set.

- Designed, engineered, tested, and manufactured in Europe
- Ultra bright multi-color LED's that can operate in 6 colors: blue, green, red, orange, purple, yellow
- Light intensity regulation system that enables the angler to easily set the desired brightness of the LED's
- Smart travelling LED indication; the lights go on from bottom to top when line is taken from the reel. They travel from top to bottom to indicate the line is going in the opposite direction (carp is swimming your way)
- 30 second afterglow memory function indicating forwards or backwards take
- Manually controlled night light function
- Step-less volume regulation
- Step-less tone regulation
- Precision regulation of sensitivity. The amount of line that needs to be pulled before the bite is indicated can be set at approx. 3,5mm to 15cm
- Extreme clever Lighthouse function that serves as a beacon to find your spot back during nocturnal activities on the water
- Housing is made out of strong ABS material with a water repellent surface
- Soft anti-slip rod rest
- Double sealed electronic parts make the indicators all-weather proof
- Low-battery warning signal
- Power out sockets to connect LED swing indicators and / or other accessories
- Integrated Stealth-mode that switches off all sound
- Super long battery-life thanks to the special energy saving construction
- Operates on 2 3V LR1 Batteries (Included!)
- Comes with a soft but durable silicon protection cover for each bite indicator
- 6 channel DS3 receiver (DS3r) with vibration function and practical lanyard
- The DS3r can be paired with the intelligent bivvy light (1294333) or bank light (1294334)

Radar DS Solar

1276337

The Radar DS Solar Alarm is the first solar powered alarm unit. It works with a Lithium-ion accumulator that charges through the rear mounted solar panel. This Li-ion battery has sufficient power to last for many weeks of fishing. You do not even need sunny conditions to charge the Li-ion accumulator, with simple daylight being more than enough to provide full power. We have absolute confidence in this product, and you can be assured of trouble-free performance after purchasing this alarm, which is why we give you a 2 year unlimited warranty. Designed, developed and manufactured in Europe. Available in 4 colours individually or as a box set of 3 blue alarms with receiver or a box set of 3 colours (R,Y,G) and a receiver.

- powered by the sun or daylight, no batteries required
- European made, 2 years unlimited warranty
- colours available: red, green, yellow, blue
- works with our DSr Receiver
- supplied with wall charger
- warning signal when accumulator needs to charge
- fully encapsulated electronics, nightlight function
- volume, tone and sensitivity regulation, mute function
- non slip rod rests, included protective rubber case
- 2,5mm jack plug for illuminated hanger

Radar DSi - DSr

ALARM

The Radar DSi alarm is not only designed and developed in Europe like so many others but also manufactured in Europe. All our parts like f.e. microprocessor, LED's, sensors and even the housing are European made. We did not want to give you any trouble after the purchase of this alarm and we have absolute confidence in this product, which is why we give you a 2 year unlimited warranty.

- Sensitivity control (line movement is measured from 4mm up to 15cm)
- Tone Control, Volume Control, Mute Option
- Multi function visual indication consisting of LED's
- 2 power out sockets
- Extended battery life, Fully encapsulated electronics, Nightlight
- soft protective case, non slip rodrests
- 2x 1.5V LR1 batteries included

RECEIVER

The Radar DSr receiver is not only designed and developed in Europe like so many others but also manufactured in Europe. All our parts like f.e. microprocessor, LED's, sensors and even the housing are European made. We did not want to give you any trouble after the purchase of this receiver and we have absolute confidence in this product, which is why we give you a 2 year unlimited warranty.

- LED lamp on the receiver
- Low battery warning
- Range up to 1km
- Easy pairing
- Full vibration function
- batteries incl. (alarm 2x1.5V LR1 - receiver 1xAAA 1.5V)
- alarm is delivered with soft protective case
- receiver is delivered with lanyard

Radar Accessories

Radar Transmitter System:

This separate miniature transmitter can be connected to almost every modern bite indicator available on the market. Highly practical and portable due to its small dimensions, lightweight and long range (up to 500m). Can be connected to all alarms which have a 2.5mm power out socket. Up to four micro transmitters can be synchronised to our DSr receiver unit.

- Radar Motion sensor: detects movement and vibrations in the range of 6 meters and in a 90 degree angle
- works wireless with our DSr Receiver, upto 3 sensors per receiver
- easy fitting with bankstick attachment, fully encapsulated electronics
- range up to 500 meter
- runs on 2 AAA batteries
- Radar Transmitter system: makes almost any non-wireless bite alarm with a 2.5mm power out socket wireless
- works with our DSr Receiver (up to 4 alarms)
- small and compact
- low battery consumption
- for all Radar products we give 2 years warranty

Kurve Indicator System

NEW

1377131

1377131

1377132

Introducing one of the most versatile indicators available today. The Kurve Indicator features an articulating head and unique line clip system which can be set to grip the line or allow it to run freely. These two key factors mean that the Kurve can be adjusted to be incredibly sensitive at picking shy bites or adjusted to minimise false bites caused by wind etc. Thanks to the flattened surface of the Kurves body, the indicator can be positioned flat on the ground when fishing slack line, again increasing sensitivity and decreasing false wind related bleeps. Five colour lenses are included so you can 'pimp' your Kurve up and, with both a chain and swing arm you can tailor the indicator to your preference. Don't settle for less indication - go for the Kurve!

- Designed and engineered in England
- Clever hinging indicator body
- Unique line grip or free running clip
- Black ball chain
- Rigid swing arm with a unique integrated metal aligner system
- 5 clip-on lenses, each with a different appealing colour
- Beta-light slot behind the colour lens
- 2 additional add on weights

Cocoon M.O.D. Rod Sleeve

NEW

The Cocoon MOD (short for Modular) Rod Sleeve system offers a revolutionary, versatile rod management solution that is lighter, more compact and offers greater protection and adaptability than any other rod sleeve system on the market. The MOD system allows you to connect single rod sleeves together to create whatever custom rod carrying solution you require. With the addition of one of our side pockets (sold separately) you also have the ability to transport your bivvy and accessories with minimum bulk, total security and adaptability.

- Fits all big pit reels
- Clever MOD connection system
- Fully lined and padded
- Neoprene padded carry handle
- Full length anti-snag zips on back of sleeve
- Compatible with 50mm ringing patterns
- Made out of durable JX73 material that is dirt and water repellent

Cocoon M.O.D. Rod Sleeve System

NEW

The Cocoon MOD (short for Modular) Rod Sleeve system offers a revolutionary, versatile rod management solution that is lighter, more compact and offers greater protection and adaptability than any other rod sleeve system on the market. It enables the modern carper to transport the exact amount of rods needed in any up or down configuration. The system comes complete with a dedicated side pocket offering storage for your net, weigh sling, banksticks and has a handy lead pocket. This system is also compatible with virtually any shelter system on the market, simply secure your shelter or bivvy between the side pouch and rod sleeves with everything locked in by the modular strap system.

- Consists of 3 x 13ft Cocoon MOD sleeves and a 3-4 rod side pocket
- Fully lined and padded
- Detachable shoulder carry strap
- Neoprene padded carry handle
- Fits all big pit reels
- Full length anti-snag zips on back of sleeve
- Clever MOD connection system
- Made out of durable JX73 material that is dirt and water repellent

Cocoon M.O.D. Rod Side Pocket

NEW

The Cocoon MOD Side Pocket is designed to be used in conjunction with our single JRC MOD Rod Sleeves and enables you to create whatever custom rod carrying solution you require. Available in two sizes, recommended for use with 3-4 rod or 5-6 rod sleeves respectively, the side pocket offers storage for your net, weigh sling, banksticks and has a handy lead pocket. The system is also compatible with virtually any shelter system on the market - simply secure your shelter or bivvy between the side pouch and rod sleeves with everything locked in by the modular strap system.

- A slim side pocket that fits 3 or 4 rod Cocoon MOD sleeves
- Fully lined with ultra soft but durable JRC lining
- Clever MOD connection system
- Durable, waterproof base reinforcement
- Smart zipped lead & bits pocket on the top
- Made out of durable JX73 material that is dirt and water repellent

Cocoon 4 Rod Holdall

NEW

This holdall offers maximum protection to 4 mounted rods and 4 spare rods. Thanks to its clever 2-up-2-down design, it takes up far less room than conventional holdalls that are typically much wider and bulkier. The holdall is very well balanced and light weight for comfortable transportation of your rods to the bank.

- Detachable shoulder carry strap

Skyliner Throwing Stick

The JRC team has designed a premium throwing stick made out of high modulus carbon. The weight reduction is impressive and enables more accurate baiting sessions and much less fatigue. Great distances can be reached easily thanks to the computer designed curve!

- Premium full T36 carbon construction
- 22mm one size fits all
- Ultra-light design for long pre baiting periods
- 1K woven carbon finish with matt surface treatment
- Japanese shrink rubber handle finish
- Luxury neoprene protection sleeve

Razor X Boat

This addition to the Razor X rod range, and something that a lot of anglers have been eagerly awaiting. Designed to cater for the increasing popularity of boat angling, we created this 10ft Razor X boat rod, that is perfect for playing fish from a boat, but also invaluable for stalking, or use in those cramped, but often very productive 'tight swims'; where your long rods are often really too long. Available in 2.75lb and 3.00lb test curves.

- minimalistic design
- thin and glossy black blank
- 40T Japanese carbon
- lightweight & responsive blank
- SIC guides
- 20mm carbon look reel seat
- carbon line clip and JRC logo on end cap
- 2 test curves in 12ft: 2.75lb and 3.00lb

Powerplay

To find a good replacement for our best selling J4 carp rod is not an easy task, but together with the team of consultants, our designers have succeeded in developing a perfect replacement that will please a lot of anglers. This rod is build in a high modulus slim carbon blank, using very good quality components including SIC guides and a 20mm reel seat.

The Powerplay Spod is part of our Powerplay rod family, ensuring strong performance and value. This rod is very strong and is capable of casting heavy spods where you want them to land.

- High modulus carbon
- slim blank
- 5 + 1 SIC guides
- 20mm reel seat
- engraved JRC logo on end cap

Contact

Representing unbelievable value, we have used only high performance carbon composite fibres and fitted lightweight TS guides with a fluted DPS reel seat, plus a stylish nylon line clip and an abbreviated handle. Finished with a dark grey carbon glossy varnish with a woven carbon effect section above the reel seat, fitted with classy red whippings these rods really look the business. Available as either a 12ft or 13ft 2 piece or 3 piece; and even 2 telescopic versions; this series will suit every new or intermediate carp angler out there who needs a combination of real value for money but backed with solid performance.

- 30T carbon composite construction
- DPS reel seat
- TS guides
- Nylon line clip
- Stylish woven carbon look above reel seat

Contact Barrow

NEW

The Contact Barrow was created to solve practical difficulties. The size and complexity of dismantling a standard barrow has always been an issue but, thanks to the clever handle-folding system, the handles can be stowed underneath the frame for transport within seconds and the wheel is quickly detachable. In addition to saving time and space, this barrow offers the strength and durability that Contact products are famous for.

- Unique handle-folding system
- Heavy duty steel frame
- Black non-glare powder coating

- 600D nylon barrow bag included
- 2 elastic straps included

Snag Ears

JRC have now created snag ears, that allow the angler to fish close-up to snags with confidence, but prevent their rods getting pulled in by a violent take. Also useful for fishing at severe angles, this high quality stainless steel Snag Ear set will increase the security of your rods at all times, and help improve rod stability in high winds, or adverse weather.
